

SATURDAY, OCT. 7, 1882.

THE ANNUAL PARADE.

The annual parade by the fire department of Quincy, on Saturday afternoon last, was a splendid affair, surpassing all others in former years, and an honor to the Chief Engineer, John W. Hall, and his able assistants.

The several companies were promptly on hand, and the procession started from in front of the Adams Academy at 1:20, and quickly marched over the route designated in our last issue. There were about 500 persons in line, including seven excellent bands of music, together with the different pieces of fire apparatus owned by the town, including the beautiful steam engine, built the past season at Manchester, N. H., at a cost of \$2,500; also the new hook and ladder truck, just completed by Messrs. Tirrell & Sons, which attracted much attention.

Among the noticeable things of the line was a beautiful display of flags in front of the headquarters of the ex-W. M. French Hose Company by day, and a handsome illumination with Chinese lanterns by night.

After the procession returned from the march and had been reviewed by the Engineers, the band-engine companies tried their skill in throwing a horizontal stream. They all played well, and did credit to themselves. The Tigers commenced the trial, and succeeded in throwing water 180 feet 4-1/2 inches; the Vulture came next, and the result of their trial was 178 feet 10-1/2 inches; the Granite came last and how away the prize—they played 200 feet, 10 inches,—and carried home the handsome nickel-plated pipe, which they had won by a very narrow margin, since it was purchased, the last two times in succession, which entitles them to hold it for their own.

The Granite Company was assisted by the Butcher Boy Engine Company, of Braintree, which company calculates to take the prize whenever there is one, as it showed their friends at the recent firemen's muster at Weymouth.

The Vulture Company was assisted by the Ulysses Engine Company, of Provincetown, a fine body of men, who came on Friday evening and stayed until near sunset Saturday. By their quiet and orderly disposition, and general good behavior, they won the respect and esteem of our citizens. They were accompanied by the Middleboro' Band, which was much appreciated.

The J. W. Hall Hook and Ladder Company made a very fine appearance. They were accompanied by the Eureka Hook and Ladder Company, of East Weymouth, whose fine appearance, and preceded by the Cadet Band of Boston. While the engines were playing, the band furnished some choice selections in the rear of the Stone Church, which the ladies, in particular, highly appreciated. After the trial the two companies, hand and foot, invited guests went to the Reform Club building, where a nice supper was served by Mr. Daniel F. French, which was followed by speeches.

The Steamer Company had as guests the Randolph Steamer Hose Company, which made a very pretty appearance. They were preceded by the Higgins Band, an excellent body of musicians, from Boston. After the trial they all repaired to the new hall, fitted up for the company on School street, where a sumptuous repast was prepared by Mr. Schiller, of Boston. The colored veterans were kept busy for some time, looking after the wants of the hungry firemen and their guests, consisting of the Engineers, Selectmen and friends.

The Tiger Company made a good appearance, and was escorted by the Hook and Ladder Band, Francis P. Lord of Quincy, as leader. This company made its last parade on this occasion, as we learn they were disbanded on Monday evening by the Engineers. The board feeling that they had no further need of their services, since the location of the new steamer in the Tiger's immediate vicinity.

The Union Band of West Quincy, played in an excellent manner on this occasion and were much appreciated by the Granite boys. They had the honor of leading the victors of the day.

In the evening, many of our citizens enjoyed an excellent band concert in front of the Orthodox Church. The Cadet Band of Boston furnished the music in their unusually good taste, and gave excellent satisfaction.

In Memory of Paul J. Revere.

We are pleased to learn that Paul Revere Post, No. 1, of this city, have sent a beautiful stone for the Soldiers' Memorial Tower and Church, soon to be erected on the battle field at Gettysburg, Pennsylvania. The granite slab was sawed by Messrs. Barker & Sons, polished by Mr. William B. Munroe, and lettered by Mr. William W. Penniman of this town. Its inscription reads:

COL. PAUL J. REVERE,
2001 REEDMAN ROAD,
—FROM—
PAUL REVERE POST, NO. 1, G. A. R.
QUINCY, MASS.

The thousands who yearly visit this field where the great conflict for Liberty and Union was fought, will be glad to notice the name of Col. Revere among the many other distinguished patriots whose names shall be placed upon this historic structure.

Wollaston.

The Oratorio Society has selected "The Creation" for rehearsal, with occasional part songs for variety. The attendance and interest are steadily increasing; there being sixty singers present at the last meeting, besides a number of visitors. "King All Glorious," by Barby, was taken up for the first time; Mr. S. M. King and Mr. George T. Elliot giving a very fine rendering of the solo parts. It has been decided to make the Baptist Church a permanent place of meeting for the winter. A concert may be looked for later in the season. Any change of place or time of meeting will be noted in the Patriot. Let all friends of good music in the town avail themselves of this opportunity for vocal practice, as well as pleasure, free of expense, and unite in advancing the musical interests of the town.

PERSONAL. Mr. Albert F. Woodbury, one of our Quincy boys, who has been associated with Dr. George W. Bird of Brookline, as head clerk in his large apothecary store, has accepted a position in the well known apothecary store of Dr. Estes, of Rockland, and has removed there. May success attend him.

Brief Locals.

Plies continue to be troublesome but their days are numbered.

Monday, Tuesday and Wednesday were perfect Autumn days.

Mosquitoes have given their farewell concerts for this season.

The evening dancing school of Russ B. Walker opens Tuesday night.

There are two cases of typhoid fever at the Quincy Home at the present time.

Mr. and Mrs. Joseph G. Brackett celebrate their golden wedding on Tuesday next.

The Pine Point Hotel and Lovell's Groves were closed for the season Oct. 1st.

Capt. Noah Cummings has been quite dangerously sick at his residence the past week.

A County Convention of the W. C. T. Union will be held at Malden, Oct. 11th and 12th.

The annual meeting of St. Stephen's Chapter, R. A. Masons, was held on Tuesday evening.

Mr. Timothy Sugrue cautions the public against paying money due him to any one but himself.

Messrs. William and Walter Glover and Frank Mitchell are stopping a few weeks at Bucksport, Maine.

Mr. and Mrs. J. D. Taber closed the Linden House on Monday. They have had a very successful season.

The Steamer Company will hold a course of assemblies in Town Hall, commencing next Thursday evening.

Rev. Mr. Kelley will hold services in Captain Hodgkinson's house, Germantown, to-morrow evening at 6 o'clock.

The regular monthly session of Probate Court in Quincy, will be held on Wednesday next, at the Town House.

Miss Annie C. Nightingale left Thursday for Easton (Pa.), Philadelphia and vicinity, where she intends to remain nearly all winter.

A large flock of wild geese passed over Quincy quietly on last Thursday morning—the first of the season, we believe.

The comet may be seen in the south-eastern sky between four and five in the morning. It is a brilliant sight and well worth early rising.

The Sabbath School, connected with the West Quincy Methodist Episcopal Church, had one of their fine concerts on Sunday evening.

Paul Revere Post will hold a fair at the Town Hall, from Dec. 18th to 22d, in aid of their relief fund. \$1000 to be distributed in presents.

An intoxicated man on the late train from Boston on Wednesday night, fell between the cars, and was rescued from certain death, by Constable Furland.

Fruit and flowers for the Boston hospitals may be sent, on Wednesday afternoon and evening of next week, to the house of Mr. Asa Wellington, Hancock street.

Quincy is still in the back ground. Dedham has its water supply and is now endeavoring to secure permission from the Legislature to hold land for Park purposes.

The valuable estate of the late Josiah Adams on Hancock street is advertised for sale. It is too valuable for house lots and will undoubtedly be purchased for stores.

A caucus will be held at the Lyceum Room on Tuesday evening by the Republicans of this town, to choose delegates to a joint convention to be held in Boston on the 13th inst.

Joseph W. Lombard will sell at auction this evening at the store formerly occupied by S. S. Spear, on Hancock street, a large lot of household furniture as well as by notice by an advertisement.

The farmers are busy harvesting their crops, which are, as a whole, in this vicinity, rather below the average. The cranberry meadows, owing to heavy rains last month, have been very wet for the pickers.

A warrant was issued on Thursday for the arrest of Officer H. H. Faxon for assault on Mrs. Kate O'Connor, while searching her husband's store for liquor. The case will come before the Court on Monday morning next.

Miss Ida M. Newcomb, accompanied by a friend, has been spending a vacation of two weeks, pleasantly at home. Miss Newcomb has half completed a course at the training school for nurses at the Massachusetts General Hospital.

Mr. Patrick Morisey, who was so seriously injured by falling from the tree in front of the Steamer House, and was conveyed to the Quincy Home for care, has so far recovered as to be able to walk about by the aid of crutches.

Officer Furland, on Tuesday last, turned over to the State Liquor Agent, liquors confiscated by the court, and seized from the following persons: Helen Walsh, Catherine Kirdan, John McGowan, and two lots from Patrick Brannan.

Quincy's clerks enjoy their Wednesday evenings off, and the stores not being lighted on that evening, the Square looks deserted. It is a good idea however, for it gives the employer as well as the employee at least one evening to himself.

We would invite the attention of our readers to the advertisement of Mrs. L. Battles, who is so well-known to the ladies of this town for her efficient manner in filling orders for work. She will, with the same promptness, attend all orders as heretofore.

We stated recently that a horse driven to Fall River from this place by Mr. Collins, died almost immediately after being put into the stable.

Some of our readers have the impression that it was that excellent horseman, Mr. Timothy Collins, we desire to correct the idea, as he is not the man.

When a couple have been married and lived together fifty years, it is thought to be a remarkable event, but when three-score years have been reached, how much more extraordinary and beautiful does it appear.

Mr. and Mrs. Paul Wild of this town will celebrate the sixtieth anniversary of their marriage on Tuesday next.

The Republicans hold their Councilor Convention for this district in Boston on Friday next. Also, on the same day and place, the Republicans of Norfolk and Plymouth counties hold a joint convention for the nomination of a District Attorney for the South-eastern District. Judge Bumpus is the favorite candidate for this county.

Quincy Point Items.

Friday night of last week the Ulysses Engine Company of Provincetown arrived at Quincy and was met at the depot by the Vulture Company, and escorted to the Point, where supper was in readiness for the men after their long journey. After an evening of friendly greetings the visitors were taken to the houses of the neighbors for the night. Saturday morning they were furnished with breakfast and dinner, and promptly at 12:30 p. m. they formed in line with the Vulture Company and marched to the Centre to take part in the parade and trial. After the trial the Vulture Company escorted their guests to the depot, where they took the train for home, receiving many hearty farewell cheers. We hear nothing but compliments for the behavior of the visiting firemen. The Vulture Company then marched to its engine house, where a fine supper was in waiting, to which the members sat down with appetites not at all lessened by their defeat. While the company did not succeed in winning the prize pipe we all feel proud of the excellent appearance and gentlemanly behavior of its members, whose actions and bearing were a matter of favorable comment from many of the spectators. In the evening the Brockton band gave a very fine concert in front of the engine house, which was listened to by a large number of people who applauded each of the many excellently rendered selections.

The Vulture Engine Company held a meeting Monday evening and passed votes of thanks to those who had assisted them at the trial and who had furnished money and eatables.

Mr. A. C. Nash died quite suddenly at San Mateo, California, Tuesday.

He was well known to the older residents of Quincy, having lived here a good many years.

Rev. George W. Bosworth, D. D., Secretary of the Mass. Baptist Convention, will preach in the Baptist Chapel to-morrow.

Next Thursday evening there will be an entertainment in the Baptist Chapel, consisting of tableaux and music. Extra preparation has been made to make the amusements well worth seeing. Refreshments will be for sale.

Thursday evening the ladies of the Christian Union Church gave an ice cream and oyster party at the Nook school house, which was well attended. This was the first of a series to be held during the winter.

One hundred and seventy-five vessels passed under the Point Navy bridge during the month of September.

Thursday afternoon a carryall, driven by Mr. John Dorley, and one belonging to Mr. Henry Nash, of North Weymouth, collided on the Point drawbridge, both carriages were somewhat damaged.

The officers and members of the Vulture Engine Company, and also the judge, said that when the Granite Engine Company made its last play they have good reasons for believing the steam engine will be a success.

The side-walk at Bent's Creek, at the Neck, has several bad holes in it, which ought to be repaired before some one gets injured.

The smokers have been having good luck the past week, but the fish are unusually small.

NORFOLK COUNTY G. A. R. The following officers were elected for the ensuing year by the delegates to the Norfolk County association, at a meeting held in Boston on Monday:

Commander, G. R. Holmes, post 85.

Senior Vice-Commander, J. W. Bralder, post 102.

Junior Vice-Commander, J. M. Holt, post 88.

Adjutant, D. W. Lewis, post 121.

Quartermaster, Lysander Wood, post 72.

The delegates voted to continue the visits to the different posts in the county, inaugurated last winter. They will visit post 72, Stoughton, Oct. 17; post 88, Quincy, Nov. 23, and post 102, Milton, Dec. 20.

BYTLE CLUB. At a meeting of the bytles of Gen. Butler, held at Hardwick's hall, on Wednesday, a Butler Club was organized by the election of the following officers:

President, John H. Dee.

Vice-President, A. W. Hicks.

Secretary, George Cahill.

Treasurer, Frederick Hardwick.

The club is now successfully organizing and it intends to push a vigorous campaign. It would not be much of a surprise to many of our citizens, if the friends of the General succeeded in giving him a handsome majority in Quincy, on the seventh of November next.

WEDDING BELLS. Mr. John H. Dinegan and Miss Hannah, daughter of Mr. William Webb, were united in marriage at St. John's Church, on Thursday morning. After the ceremony they repaired to the residence of the bride, where, with a few friends, a short time was happily enjoyed. In the afternoon they started on their wedding tour, intending to visit New York and other cities. They will receive their friends after the 16th inst.

May prosperity and happiness be their lot through life.

KNIGHTS TEMPLARS AT NATICK. The South Shore Commandery, of the number of eighty-five, headed by the Boston Cadet Band, visited Natick on Wednesday, as guests of the Natick Commandery, which celebrated its first day of the Trinity Commandery of Hudson and the Milford Commandery were also present with bands. The four commanderies paraded the streets of the town, gave a dress parade, and enjoyed an excellent dinner and the toasts following, at Walker's grove.

VISITING FRIENDS. We were pleased to receive a short call on Wednesday from Mr. Alonzo Fernald of Central City, Colorado, who with his wife is visiting friends in this town.

Mr. F. is looking well and we were pleased to learn of his large circle of friends in this vicinity.

On August 18th Queen Victoria signed a bill allowing married women control over property acquired separately. This is simply an act of justice that should have been accorded the women of England long ago. But better late than never.

FOR REPRESENTATIVE. The Republicans of this district hold a convention at Boston, on Wednesday next, to nominate a Representative to Congress.

"We come, we conquer." Such surely must have been the feeling of the Granite boys, on last Saturday afternoon, after winning the pipe for the third time. It was done in good shape and should throw credit upon the boys for their vigorous efforts. Some fears were expressed as the Vulture threw her first stream, which was a good one, but by those who had seen the practice of the Granite knew that she had been located and was able to do still better, which proved correct. As she came into line and threw her first stream, it gave a brighter outlook for the nervous ones, but when word went back to the brakes that only ten inches further and they were done, their muscles proved double, their work was simply immense; aided by the encouraging voices of their foreman and assistants, it proved itself all we expected. Cheer upon cheer went up, as they saw the magnificent stream which was thrown, which of course took the pipe. The Granite were aided by members of the Butcher Boy of South Braintree, and the King Philip of Rockland; and to both companies we are sure that they felt very proud.

On all occasions there is always some one who shows the mean spirit, but the entire company, we wish to say, should not be criticised by this one act, by one who does not know what manners are, such a spirit, as was shown by one who was making an insult upon one of the Vulture's visiting company, is condemned by every member of the company, and the sooner such characters are discharged and turned out of the company, the sooner they will rise in the eyes of the public.

The Democrats of the District held a meeting on Monday evening and organized a Butler club, with Mr. Wm. Barry as president.

Mr. E. H. Doherty and family have moved into their new house. We wish them all happiness.

The Sabbath School, concert at the M. E. Church, last Sunday evening was very good, which is always the case. The singing and children's speaking all passed off very nicely, much to the praise of superintendent and teachers. Refreshments will be for sale.

Last week Thursday evening the Rev. Mr. Gilman of the place delivered an exceedingly interesting lecture at Associate's Hall, Milton. The subject being "The Land of the Nile" with photographic views of the great Nile, the Nile, and of the leading characters.

Golden Wedding at Neponset.

The children, grand-children, brothers, sisters, neighbors and friends, to the number of sixty, assembled at the residence of Henry L. Faxon, on Wednesday evening last, to congratulate Mr. Faxon and wife upon the fiftieth anniversary of their marriage.

The aged couple, whose ages are 71 and 74, were in good health, and enjoyed the surprise in a pleasant and pleasing manner. The evening passed very pleasantly, with social conversation. A presentation of *friendship*, in the form of gold pieces, were presented, in behalf of all present, by their only grand-daughter, Etta Florence Nightingale, of this town, who also composed and read the following poem:H. L. AND A. A. FOWLES.
1832-1882.Fifty years have fled with hopes and fears
Since those, who to-day bear the burden of years,
First started out, with youthful vigor,
To travel the changeable road of life.So here, to-day, in their homes we meet,
With cheerful smiles we haste to greet,
And ask as the future shall most their view
"O could we but forget with a golden hue."Perhaps "would be well as we greet them to-night,
To recall to mind the smiles and tears,
Which came to the home with fifty years.In a pleasant spot, on the Quincy side
Of blue Neponset's rippling tide,
They made their home, and day by day
Together planned their future way.First to the home came a baby girl,
Whose clustering hair was found to curl,
And as days fled with two little boys,
To share in the household joys.Little learned to walk the floor,
Little hands left their mark on the door,
The children grew, as children will,
Raced over the meadow and up the hill.But into all these come as shadows fall,
Sorrow or later death adds for all,
Into this home he steadily came,
And in his embrace both boys grew.Time fled away, as in days of yore,
And childhood's prattle is heard once more—
Two little boys are sent to school,
The places left so lone and still.Meanwhile, they into this home had come
And made, as we see, their settled home,
Changes now come in everything fast,
The girls have finished their school at last.And the eldest one, to womanhood grown,
Attempts to make for herself a home,
But sickness prevents, she lingers here,
Till called to dwell in a brighter sphere.Each of the others, in turn, were wed,
The younger one slept with the silent dead;
So, of the five who made home bright,
But one remains on the "Golden Night."But we must close, for time still flies,
And bring, as of old, smiles, tears and sighs,
We hope it may bring to these friends so dear
More joy and comfort every year.But our wishes are vain and our prayer to-night
Is for those, Father, who seem to be right,
October 4, 1882.

Mr. Fowles is a brother of Mrs. Joseph Burrell, of this town, and is smart and active, for a man of his age. The occasion occupied the time until towards the small hours, when all repaired to their homes, hoping for the continuance of health and happiness to the venerable couple, to enjoy many more such occasions.

A Joint Convention.

The struggle for nomination of candidate for District Attorney for this District now stands as follows: Norfolk County has nominated Judge E. C. Bumpus and Plymouth County Hosea Kingman, Esq., of Bridgewater, each county holding a separate convention. It is now decided to hold a joint convention of the two counties at Wesleyan Hall, Boston, October 13th, at which Judge Bumpus will doubtless secure the votes of Norfolk County Delegates and also quite an important portion of the Plymouth County Delegation which will be sufficient to secure his nomination.

THE MILTON NEWS. We notified by a copy of the Milton News, received on Saturday last, that that paper is still published, although a new hand has taken a turn at the mill. We had supposed, failing to receive copies, and from information received from a citizen of Milton, that it had suspended publication, but any one reading the last issue would not think that it was dead, or intended to be soon. May success attend its new publisher.

Atlatle.

A large number of our residents witnessed the parade of the Fire Department last Saturday.

The J. Q. A. Chemical Engine Company, on their way to and from the parade, made a very good appearance, marching to excellent music, furnished by the Scituate band. Early in the evening they paraded of an excellent supper, prepared by the ladies of Atlantic street, which came an outdoor concert on Atlantic street, by their favorite band, which drew a large audience, many coming from Neponset. The band stand and the houses in the immediate vicinity were finely illuminated by Chinese lanterns. This, we believe, was the first band concert ever given in our village, and it is therefore evident that some good can be derived from an engine company besides that received from fire service.

The Road Commissioners have met at work repairing the side-walks from Depot street. It was much needed.

Neponset Bridge is again being repaired, in the hope that it will stand a little longer. We again suggest, as the bridge is in such a state of decay, it should be lighted, at least on dark nights, and the Commissioners would do well if they added two additional lanterns.

East Milton Items.

On Sunday evening last a Harvest Concert was given at the Congregational Church which reflected much credit on both superintendent and scholars.

Mrs. H. L. Brokenshire returned last Tuesday from a pleasant trip to the White Mountains.

We are pleased to learn that Mr. O. A. Andrews is slowly improving.

Miss Cummerford of Boston will substitute for the coming winter at the East Grange School.

The weekly prayer meetings will be held every Friday evening at the Church in East Grange, as heretofore, for the purpose of learning new hymns.

On Monday afternoon last Mr. H. E. Sheldon and J. A. Simpson were thrown from a buggy, but escaped serious injuries.

Last week Thursday evening the Rev. Mr. Gilman of the place delivered an exceedingly interesting lecture at Associate's Hall, Milton. The subject being "The Land of the Nile" with photographic views of the great Nile, the Nile, and of the leading characters.

DEAR PATRIOT:—A cuckoo clock was drawn on Monday evening, in this village, valued at about \$50 by Mr. James H. Bell of Hyde Park, driver for C. F. Farnsworth's bakery. A party of five or six men, who were in Hyde Park, and about midnight aroused him, much to his surprise.

The one who made the clock was with the party and presented it to Mr. Bell. He welcomed and thanked them for their kindness; and all parties are pleased that he got it, for he is a favorite with East Milton and West Quincy people.

New Railroad Depot.

The town of Dedham has now one of the handsomest and most convenient railway stations in the country. The Depot, which is built in the style of architecture, rather novel in its style—quite striking, and people who have viewed heretofore take the first place as a building erected extensively have expressed the opinion that it is rather superior to any other in New England. It stands at the corner of High street, the main thoroughfare of the town, and the clock in the tower can be seen for a considerable distance by people approaching it from several directions. A short distance from the Depot a new round house has been erected. The expense of making the new improvements has been nearly \$100,000, and although the Court House and the Memorial Hall in Dedham are beautiful buildings, yet the new depot will hereafter take the first place as a work of art, and is the most ornamental building in town. Its interior arrangements are in keeping with its external beauty, and its vaulted arch gives the impression of entering a cathedral. The next train leaving for Boston will take place on the first of January next, when the season ticket system will be abandoned, and the fare to and from Boston will be reduced to ten cents each way. The third track from the Depot, which was formerly used for that time, and there will then be no difficulty in running as many trains as are required.

The Webster Centennial.

Thursday next will be a gala day in Marshfield. President Arthur is to be present to join in the celebration of the Webster Centennial. The President is expected in Boston on Wednesday by the way of the Old Colony road, and he will arrive in Marshfield at the Old Colony Station, at 9.45 A. M., where the entire militia force of the State will meet him, they being ordered as escort. The President will be escorted through the city over substantially the same route covered when President Hayes was in Boston. At 3.30 P. M. the commonwealth will turn out the distinguished guest over to the municipal authorities, headed by Mayor Lovell. He will be formally welcomed by His Honor Mayor Green, and the committee on reception. After luncheon he will be taken to Faneuil Hall, where a short reception of thirty minutes will be given. At 9 o'clock Wednesday evening an elegant reception will be held at Hay's nobility of head. It is said that no candidate but Death could defeat Mr. Lovell's election."

MESSRS. WM. S. BUTLER & CO., whose store is a popular resort for ladies shopping in Boston, present an attractive notice in our advertising column to-day. Their fall importations have been very comprehensive and patronage is always sure of finding a choice assortment of goods, and the latest fashions, with tempting bargains in all departments. Their store at 9 Tremont street is easily reached by horse car from all the railroad stations and enjoys a deserved popularity in every large district outside the city.

One of the oldest violinists in the state, Mr. Amheist Gay, residing in Stoughton, is nearly eighty years old, and has played the violin ever since he was young to intelligent handle the bow.

WORKS.

P.O.L.E. Examine our new P.
tector. Below are some of t
reasons why every one owning tr
should use this Protector.

1. It is a first-class tree Protector with a perpendicular front to the opan, which prevents the oil from blowing out.
2. It has a pan large enough contain oil for the season.
3. It is manufactured from ha sine, and will last for years.
4. Being corrugated, prevents sagging when on the trees.
5. The protectors are smaller the centre, which prevents the p from falling through.
6. We use tow for packing, so there is no danger of girdling or injuri the tree.
7. By using our protectors, you w get more and finer fruit.
8. It is so constructed as to be perfect barrier against canker worms. It will prevent codling moths, tussock moths, bark lice, curculio, caterpillars, etc. from ascending the trees.
9. This Protector is so cheap, th every one owning trees can apply it. It is simply insuring your tr against insects for a few cents a year.

ectors has taught me what is required by the possi care of our customers, that every thing that nothing can be fastened solidly is applied. As Protectors to hundreds of trees, will please give their orders early to insure them and prevent the codling moths, curculio, etc.

Brief Locals.

Burglaries.

Our quiet village has been aroused this week by numerous burglaries, some of the most daring and successful kind, by experts, others of a petty nature, where little or nothing were taken.

The residences of two of our wealthy citizens on Adams street, Messrs. Wm. W. Greenough and James Baxter, were entered early on Monday evening, and a large amount of valuable jewelry was carried off, while the families were quietly enjoying their parlors and sitting rooms, not thinking that a villainous rascal was ransacking their jewelry cases and drawers for what valuables they could find.

At Mr. Greenough's some eight or ten persons were in the parlor, in social conversation, between eight and nine o'clock, when it is supposed the thief stole quietly up one of the posts of the piazza and went into several chambers on the second floor, ransacking the drawers and boxes, and taking such articles of value he could lay his hands on. In one chamber, where a baby was sleeping, he locked the door on the inside and examined the ill-gotten gains he had collected, leaving the boxes in the room and the door locked, making his departure through the window to the piazza, and from there to the ground by a jump.

At Mr. Baxter's, it is thought the burglar entered at the rear of the house and went up the back stairs. Several chambers were entered, and much nice jewelry was found, including one valuable diamond set belonging to Mrs. Theophilus King. The rogue reaped a good harvest at this place; articles of value to the amount of \$400 and \$500. At Mr. Greenough's about \$250.

Four suspicious persons were noticed on Adams street about nine o'clock the same evening, who, it is thought, composed the party.

On Wednesday morning about nine o'clock the residence of Peter Butler, Esq., on Hancock street, was entered and a clock carried off. It was rather a curiously planned affair. Some one went to the back door and made a request for some water. About the same time a person dressed in woman's clothes (which they now think was a man) called and made inquiries, and as the attendant was waiting upon them she saw a man leave by the front door, and afterwards a clock was found to be missing.

On Sunday morning, or late Saturday evening, the hardware store of Messrs. Sanborn & Damon, in the District Court building, was entered, but little was taken away. The same evening the store of Mr. Enoch E. Hall, on Washington street, near the canal, was entered by breaking one of the large squares of glass in the front door and snawling through the aperture. Here the rogue succeeded in getting about \$25, in small change, candy, sugar, etc. The thief also left a screw-driver which he had stolen at Messrs. Sanborn & Damon's. Mr. Hall's store was entered a night or two previous, early in the evening, but, from appearances, the rogue left hurriedly, and did not take anything away.

On Thursday night, last week, Mr. John H. Dinegan's store, on Hancock street, nearby, was entered, and \$150 stolen, mostly coppers.

A Pearl Wedding.

The sixtieth anniversary of the marriage of Mr. and Mrs. Paul Wild of this town, occurred on Tuesday last and the event was pleasantly noticed by a very large gathering of friends at their residence on Washington street, some one hundred and fifty being present. The day was very pleasant which drew out a goodly number of friends of "days o' long yore" to enjoy with them this remarkable anniversary. Mr. and Mrs. Wild were in the enjoyment of good health and retain in an uncommon degree the vigor of their younger days, and they entertained their friends in a royal and happy manner. This couple have occupied their present home for over fifty years, surrounded by loving friends who delight in contributing to the happiness of "uncle and aunt."

Among the guests were Rev. Mr. Wilson, pastor of the Unitarian Church, who made some remarks appropriate to the occasion. An excellent supper was partaken of and heartily enjoyed—the wedding cake being a superb quality. May the bride and groom of sixty years be spared to enjoy with health and prosperity their seventy-fifth anniversary, and gather around them their friends to celebrate their diamond wedding.

Mr. Wild occupied for twenty-five years a stall in the Quincy Market, Boston, and sold the first quarter of lamb ever disposed of in that market.

FAST COLT. The two-year-old stallion, Don Carlos, owned by John R. Graham, of Quincy, was driven last week over the course at the Brockton fair, in an exhibition race, to beat the best time on record for two-year-olds. This colt has been trained by Mr. J. B. Benson, of this town, and everyone admired the cool manner in which he handled him.

Mr. Benson has several other fine horses at his stable, which he is training for different parties, and was pleased to say that he is very successful at the business. Being an active, stirring gentleman, with a kind heart, he knows how to handle a young colt in a manner that is very creditable to him.

FLOWER MISSION. The Flower Mission closed this week, after a successful season of nearly five months. With the exception of a few weeks during the very hot weather, the supply of flowers has been quite large, and before vacation, was greatly increased by weekly contributions of wild flowers, from children of the Adams school. Mr. Winslow has kindly and promptly delivered them, and Mr. J. B. Benson, of this town, and everyone admired the cool manner in which he handled him.

PERSONAL. Theodore Kellogg, Jr., of Bath, Maine, spent Sunday last at schoolmates in this place. He attended the Codding Grammar School in Quincy, between 1847 and 1850. He was in good health and spirits, and resembled his father, who for many years carried on the harness-making business in this village.

The Tan O'Shanter cap is all the rage now.

OCTOBER.

Softly the sweet summer time has flown away

On the golden wings, and the glorious day

And blossoming of another year, has united

With the past. The little spring violets, the bright

Rose buds, the queenly lilies with their golden

Red and stamens, have tripped away to a

Summer clime. The summer sky and a softer

Falling leaf, and watch the drifting cloud, the

Remembrance of their beauty. And now is ushered in

A People's Course of Lectures and Entertainment.

About a week ago a meeting was held at the house of Mr. Wm. B. Rice, on Adams street, to consider plans and measures for a course of lectures and entertainments for the people to be given in the present season in the Town Hall. Among those who were present were Mr. Wm. Everett, Rev. D. M. Wilson, Mr. E. H. Dowson, Mr. Theo. King, Jr., Mr. Sigourney Butler, Mr. John O. Hall, Mr. Horace Eaton, Mr. Wm. B. Rice, Mr. C. A. Foster and E. A. Southworth. After full deliberation it was decided to have such a course, to be given at the rate of ten cents for each entertainment or lecture, and to begin the course in town hall immediately after the election. The design of the course is to give those who cannot afford to attend lectures and entertainments in Boston, an opportunity to enjoy good entertainments and instructive lectures here in town. With this in mind it was suggested that the course be given on Saturday evening, the Rev. D. M. Wilson, Mr. Sigourney Butler, and Mr. C. A. Foster were selected to carry out the purposes of the meeting and to that end to secure a permanent committee of arrangements.

Accordingly a second meeting was held in the Selectmen's Room last Monday evening. There were present those who were to constitute the committee of arrangements. The Rev. D. M. Wilson was appointed chairman, and Mr. Sigourney Butler secretary. After full consideration of all matters involved it was voted to have the course Saturday evenings and as soon after the November election as lectures or entertainments could be arranged. The committee divided itself into the following sub-committees:

On Lectures and Entertainments.—Rev. D. M. Wilson, Mr. C. A. Foster, Mr. John O. Hall, Mr. Sigourney Butler, Mr. James M. Rice, Mr. E. A. Southworth, Mr. Peter Deane, Mr. Wm. B. Rice, Mr. E. H. Dowson, Mr. Theo. King, Jr., Mr. O. Hall, Mr. J. E. Burns, Mr. Theo. Perry, Mr. E. A. Hunt, Mr. Walter Rice.

On Printing and Tickets.—Rev. H. Evan Cotton, Mr. P. H. Gavin, Dr. S. M. Donovan, Mr. J. O. Hall, Mr. Harry Luce.

The last committee was given power to add to its number if necessary.

Harvest Festival.

The harvest festival given at the Town Hall on Wednesday evening by the Universalist Society was a very pleasant affair. It was a lovely night, one of the best of the season, and a goodly number assembled to enjoy the festivities of the evening. Many went directly to the hall from their work, and partook of a good hearty meal. Others went in season for the entertainment, which consisted of piano solos, duets, readings, etc., of a fine order, and was much appreciated. The singing by Mrs. Sawyer was excellent; the readings by Mrs. Burdell occasioned much amusement, and were warmly appreciated. The piano solos by Mr. A. T. Jackson were very fine. After the entertainment a few hours were pleasantly enjoyed in dancing to the excellent music of Porter's orchestra of Brockton.

MARRIAGE BELLS. A fashionable wedding occurred on Tuesday evening last at St. John's Church; the contracting parties were Mr. James J. Ford, of Weymouth, and Miss Anna M. daughter of Mr. P. Cahill of Braintree. Rev. F. A. Friguglietti performed the ceremony. The ushers were Messrs. Leander Cavanaugh, and John Cahill of Braintree, Mr. Luke Coyle of Quincy and Mr. John Connors of Weymouth. The bride was dressed in white and looked beautifully. There were a large number present to witness the ceremony. A reception was held at the residence of the bride's parents.

RECEPTION AND DANCE. The American Legion of Honor of Quincy will give a reception and dance in the Town Hall, on Wednesday evening, Nov. 15th. Every possible attraction to make it a success will be had. The orchestra will furnish the music, and nothing more of the superior quality of music that may be expected. There will be a short musical concert before the dance. A first class caterer will furnish the supper. The tickets are now for sale by the members. All who intend going should procure them at once, as there will be none for sale at the door.

MASONIC. Rural Lodge held its regular monthly meeting at Masonic hall, on Thursday evening. It was a occasion of the visit of the Most Worshipful Grand Master of Massachusetts, Samuel C. Lawrence, with suite, and the members turned out in good number to welcome them. The M. W. G. M. presented the subject of commutation to the brethren, and it was so favorably received that Rural Lodge came to the front and unanimously voted to commute for all of its members.

BICYCLE CLUB. The Quincy Bicycle Club entertained the Brockton City Bicycle Club at the Lyceum Room, on Sunday last. The visiting club were met at South Braintree by their entertainers and were escorted to the club's room. After a short time pleasantly enjoyed in an interchange of pleasing conversation, the company adjourned to the hall, where a feast of good things was spread, which the long ride had given a good appetite to enjoy.

MARRIAGE. The daughters of Mr. William R. Polson of New York, and Miss Abby F., only daughter of Mr. William F. Whitney, were celebrated at the residence of the bride's parents on Thursday. Owing to the sickness of Mrs. Fowler, the bride's grandmother, and a few friends were present to witness the ceremony. The young couple left the same afternoon for Brooklyn, N. Y., where they will make their home.

LICENSE REVOKED. Arthur B. Hayward, apothecary, who was granted a retail license, last summer, was summoned before the Board of Selectmen of Quincy this week, to say why his license should not be revoked, on complaint of Officer Faxon. After a careful consideration of the subject the Selectmen deemed it wise that his license to sell intoxicating liquors should be revoked, and he has been accordingly notified by the clerk of said board.

Friday was a lovely day, and, as the old Indian prophecy is that the last Friday of one month governs the coming month, the prospects are now a pleasant November.

James R. Wild has fixed up the room he formerly used for the sale of harnesses for an office and had gas put in this week. It is one of the most pleasant and cozy offices in town.

For the Patriot.

Quincy Post Items.

The Vulture Engine Company held several meetings during the week to perfect arrangements for its excursion to Provincetown. Thursday morning at 7 o'clock the members of the company and invited guests met at engine house, and headed by the Weymouth Band, marched to the depot, and left for their destination in a special train, chartered by the company. They arrived safely at 12 o'clock, and were met at the depot in Provincetown by the whole fire department of that town, who gave them a hearty reception. At 2 o'clock Friday morning the company started for Quincy, arriving at 10 o'clock. During the trip the company were the recipients of the most cordial and flattering attention, both from the firemen and populace, and they speak in the highest terms of the many acts of politeness and generosity shown them during the time they were there. The different engine houses were visited, and at every one fine collations were spread for the visitors; even at the stores, the Quincy engine house, from a drawer containing about \$500 was stolen. Officer Furnell has the matter in charge.

Inquests were held before Justice Pratt on Thursday afternoon at the District Court room, on the death of William Mead of Albany, New York, who was run over by the Old Colony Railroad train, on Oct. 20th, in Quincy, near the Braintree line. Also on the death of Daniel Sullivan of North Easton, who was killed in Braintree, by the cars on the morning of Sept. 11th. These cases were continued to allow further facts if possible. It is supposed from evidence, that both of these men were not in their natural condition, but had indulged in intoxicating liquors.

The Democrats from Norfolk and Plymouth Counties, held a convention on Thursday at the State Committee's Headquarters, in Boston, to nominate a candidate for District Attorney for the Southern District. Aerial Fifth in Lecture Rooms.

It is among the social problems to be solved before the millennium how persons, tidy in their apparel, and exquisitely neat in their cuisine, can sit for hours and quietly inhale invisible filth, which has been ejected from both healthy and diseased lungs, from our stomachs, carious teeth, and other sources of animal corruption; and yet such physiological incongruities are not infrequent in our evening religious and social gatherings.

Such foul ailment for the lungs and blood is mainly furnished by the defective ventilation of our audience rooms for social and religious concourse. Not during the winter season, but how is it in winter, when furnaces are used. The pure air from without, heated in its passage through the furnace, rises direct to the ceiling, and if allowed, it will escape through the openings there; if not so allowed, will flow along and down the walls to the audience, mingling with or expelling the heavier and corrupt air near the floor.

Now, where should the ventilators be placed? Obviously, in the lower half of the walls, where the cooler heavier and more corrupt air is found. But, says some fabled victim of physiological chaplain, "Dear Sir, I shall catch my death of cold from them holes. I can't bear the slightest draft of air."

Rev. Mr. Harris preached Sunday morning and evening in the Christian Union Church. At the latter service he said he had been informed of the matter and decided shortly.

Rev. George J. Carlton, for ten years chaplain at the Massachusetts State Prison, will preach in the Baptist church to-morrow afternoon. His subject will be "Prison Life," or more particularly, of the beginning of criminal life—how not to get into prison. There will be a Sabbath School concert in the evening.

The Ladies' Benevolent Society met Wednesday afternoon at the residence of Mrs. T. H. Newcomb. It will meet next Wednesday afternoon at the residence of Mrs. H. M. Felchler.

A canvass of the Point district is being made to see how many Republican voters there are.

Remember the Republican rally at the Town Hall, Saturday evening. There will be some fine speaking.

The ladies connected with the Christian Union Church propose to hold a fair next month, and have applied for the vestry of the Baptist Chapel. It.

Football.

On Saturday last, a match game of football was played on the Adams Academy Grounds, on Greenleaf street, between the Roxbury Latin School and the Adams Academy. The Roxbury team won in a victory for the Adams Academy eleven by a score of one goal and two touchdowns, to nothing. Soon after the opening of the game, the ball was forced down to Roxbury's goal, and the Adams Academy eleven, realizing the situation, made a successful play by J. P. Lout, Adams Academy. From Lout's place a difficult goal was kicked by Capt. Fargo, added to the score of the Adams Academy eleven. No further points were made during the first three quarters of an hour, but Roxbury was compelled to touch back for safety twice. In the second three-quarter game again got away with the ball, but unfortunately fell and was injured in endeavoring to dodge an opponent. While on the ground, however, he skillfully passed the ball to C. Lout, who had kept close behind him. Lout, by brilliant running and dodging, carried the ball across his opponent's line, and made a touch-down exactly behind the goal posts. Capt. Fargo again attempted a goal, but this time missed it, and no other points were made by either side before time was called. The features of the game were brilliant, and the play was very attractive. The ball game is a most interesting and profitable study to the young students in studies of atmospheric corruption, will never be great.

The fair of the Manufacturers' and Mechanics' Institute, in Boston, will remain open but a few weeks longer, and the attraction will be increased by so to add even to the interest and success that have marked its recent history. The band stand, which has been removed from the rear gallery to the center of the floor, will continue to be a feature of the fair, and the programmes by the Boston Cadet Band and the Spanish Students and vocal talent being announced for afternoons and evenings. Exhibitors are favorable to the idea of prolonging the fair into November, and there is, therefore, no liability of lessened interest in the closing weeks by withdrawal of exhibits. Pupils of primary or grammar schools, who are not over fifteen years of age, can visit the fair for 12-1/2 cents. A number of school children have already secured tickets, and are expected to attend, and there is promise of an increase of the young visitors. In this connection it is said by exhibitors, that the children are among the keenest and most observing classes who enter the exhibition building.

BEACH POINT, PLYMOUTH. Work has been commenced on the breakwater at Beach Point, so badly damaged by the storms of last winter, and it is probable that the larger part of the appropriation of \$14,000, granted by the last Congress, will be expended this fall, or before Winter fairly sets in. Gen. Thome has placed these important repairs in charge of U. S. Engineer Harwood, of Wareham, and the contractor for the work is Mr. Charles H. Edwards, of Quincy. The latter has now discharging on the Beach two loads of stone from Quincy, from which place most of the larger blocks will be brought. Pasture stones will be used for the main body of the work, and the contractor has forty men, with a number of teams, now employed on land of Capt. Joshua Delano, at Rocky Neck, getting out boulders of all sizes. Two row skiffs will freight this material across to the Beach, where a full force of workmen is now engaged.—Old Colony Memorial.

The liquor-dealers near school-houses are not to escape prosecution, possibly, though they do board-up one side of their shops and make new entrances elsewhere. Judge Forsyth, in our Municipal Court, has rendered a decision to the effect that the sale of intoxicating liquor is illegal if made within four hundred feet of a school-house, even though the front-door be boarded-up, and an entrance made on another street. The location, and the entrance, is what is in default, he said. An appeal was taken to the Supreme Court.—Boston Commonwealth.

Mrs. W. Seward Webb and Mrs. Hamilton McK. Twombly are to have houses built for them by their father, W. H. Vanderbilt, on Fifth avenue, in New York, at an expense of \$325,000 and \$375,000 respectively.

Dr. Seymour Haden, who advocates burial in wicker caskets instead of close coffins, to facilitate the returning of ashes to ashes, is coming to this country.

A large sale of horses, carriages, and traps, &c., takes place at the Robertsons House, on Tuesday next. This offers a grand chance for any one desirous of purchasing any thing in the stable line.

Political.

At the Democratic caucus held on Wednesday evening, William N. Eaton and W. G. A. Patten, Esq., of Quincy, were nominated for Representatives to the General Court.

The Democrats will hold a grand rally at the Town Hall this Saturday evening. Hon. Albert Palmer and J. A. L. Whitner, of Boston, will address our citizens. W. G. A. Patten, Esq., will preside.

At a Republican convention at Dedham on Wednesday, John Q. A. Field, of Quincy, was nominated for County Commissioner, to fill the vacancy occasioned by the resignation of Hon. James Humphrey.

On Monday evening the Republicans held their last rally before the election. Chas. H. Porter, Esq., will preside, and Gen. J. A. Hall, of Maine, will address the meeting. The Union Band will furnish music.

A Republican rally was announced to take place at Temperance Hall, West Quincy, last evening (Friday). Theo. King, Jr., of Quincy, and Samuel J. Elder, of Boston, were announced as speakers.

Samuel L. Powers will address the citizens of Atlantic City (Saturday) evening, at the schoolhouse, Josiah Quincy, Jr., will preside, and, owing to the sudden death of his grandfather, who was found dead on Thursday morning, he will not be able to fill the engagement.

Senator How will speak in Milton on Saturday evening at 7.30 o'clock.

Fires.

A small barn on Summer street, Quincy, owned by Patrick Donlan, was destroyed by fire on Wednesday evening, between 10 and 11 o'clock, together with some hay. The barn was insured in the Quincy Mutual Fire Insurance Company for \$200; which amount was promptly paid this morning by said Company.

A barn owned by Mrs. James Galway on West street, West Quincy, containing about five tons of hay, was entirely destroyed by fire on Friday night of last week. The hay was valued at \$100; the barn was old, and probably worth about \$50.

It is supposed that these fires were the work of incendiaries; although Quincy has been the scene of such fires for many years, it is not so common now as it was. It is thought when the town received its new steam fire engine that fires would be numerous, but we are pleased to say that it has not been so; scarcely has the services of the steam engine been needed, and it seems too bad to keep horses without any use for them.

PEOPLE'S LECTURE COURSE. This course, which is in the hands of a Committee of citizens, and arranged chiefly for those who can afford neither the time nor the money to attend lectures in Boston, is to open next Saturday evening, November 11th. The Cobb Combination Company will give the entertainment the first night, and any who have heard them or heard about them are sure that the entertainment will entertain, that it will be sparkling, delightful and humorous. Walter Emerson the cornetist who at Nantucket beach this summer, charmed thousands, is himself almost a humorist. But with him are rare singers and an inimitable humorist—Mr. Cobb—who will altogether make the entertainment the best that has for many a day appeared in Quincy.

The following Saturday evening the celebrated reader Miss Conthou will appear assisted by some extra musical talent. The succeeding entertainments and lectures will be announced as they come. Tickets will be for sale at the door and at places to be announced. There will be no reserved seats and when the hall is full the doors will be shut.

COMPLIMENTARY. The Province-Town Advertiser, in its account of the parade and muster of the fire department of that town, on Thursday of last week, speaks very highly of the Volunteer boys, who were guests of the City. It says they made "a fine appearance in their new uniform of white helmet hats with red shield, white shirts trimmed with red, and dark pants. As was said many times during the day, they were a fine looking and well behaved company."

In the evening the Volunteers, with their band, were escorted through town by the No. 7's, visiting the several engine houses, where fruit, cigars, etc., were served to the visiting firemen. One of the Volunteers was heard to remark that it was difficult to tell which company they were visiting, as all the companies received them with such hospitality. Foreman Bickers wishes us to express through our columns, his thanks of his company, for the valuable assistance rendered them by the Volunteer Engine Co. No. 4, at the trial, and for the gentlemanly conduct of the company during their visit to Providence.

STATE ELECTION. Before another issue of this paper the question as to who will be elected to the several offices to be voted for in the election of Tuesday next, will have been settled, victory will have perched upon somebody's banner, the great agony will be over and we can settle down for another season of political quiet. Nobody will be hurt, everybody will say "I knew it would be so," you might have expected it, and the stream of human life will flow on as tranquilly as it ever did.

We do not propose to tell our readers how to vote next Tuesday, for voters who read the PATRIOT know enough to vote according to their own convictions, or according to their own will, and we hope they will all vote right, and that they will set themselves firmly and resolutely against all attempts at dictation or coercion, which are liable to crop out in all parties.

ANNUAL MEETING. The Quincy Charitable Society will hold its annual meeting, Monday, Nov. 6, at 2 P. M., at the residence of Mrs. Benjamin Curtis, School street. Members are requested to attend. Mrs. Charles A. Spear, Secretary.

Brief Locals.

Thursday was the coldest night of the season.

Who shall it be in Quincy—Butler or Bishop?

The political campaign is getting exciting in Quincy.

The F. F. F.'s held their annual meeting last evening.

Twenty tons of fine English hay advertised today for sale.

Barlow Lodge held a special meeting on Thursday evening.

Superintendent Brown has recovered from his recent illness.

The Steamer made excellent time in getting to the two fires recently.

Anyone desirous of purchasing pigs can be supplied at the Dehon estate.

The Social Club, connected with the First Church, met at Faxon Hall last evening.

The mosquito continues to be the destroyer of "Nature's sweet restorer, balmy sleep."

Mrs. G. I. Aldrich, formerly of Quincy, is visiting in town this week.

Sanborn & Damon have a splendid lot of parlor stoves, which are worthy the inspection of our citizens.

The Hon. Charles Adams and family remove to their winter residence in Boston next week.

Mr. J. Frank Barrill invites those who are interested in his sales, to visit him in his new quarters.

The next meeting of the Legion of Honor will be held on Tuesday evening, Nov. 7th. Members are requested to be present.

Joseph W. Lombard will sell on Monday next, a cottage house and land on Mount Pleasant, belonging to John G. Hobbs.

Mr. Benjamin Watson leaves town this week for Providence, R. I., where he intends making his home with his daughter.

Mr. T. G. Price Hardwick is once more upon our streets, after a sickness which has confined him to the house for some time.

We would invite the attention of our readers to the advertisement of D. B. Steison, who has an extra quality of men's and boys' thick boots.

David Brown, Esq., of Chichester, N. H., a member of the New Hampshire Legislature, has this week been visiting relatives in this town.

A nice lot of canary birds has just been received at the bird store of Francis W. French. Those desiring good singers should give him a call.

The new Hook and Ladder truck proves to be too heavy for man power to draw, and will have to be provided with horses when its services are needed.

The registration of voters closes this Saturday evening, at ten o'clock. Let all who desire to vote see that their names are registered, or they will not be permitted to cast their ballots.

The last half at Walker's dancing school commences Nov. 11th, when advanced pupils will be received for the remaining seven lessons and the ball for \$3. The class now numbers nearly fifty.

The playing of the Union Band at the recent political rallies at the Town Hall has been very successful, and we have heard many speak in praise of it. The band is now under the conductorship of Mr. H. C. Brown, of Boston.

By referring to the advertising columns it will be seen that a great bargain in land is offered in East Milton, only a short distance from the railroad depot. An enterprising man with a small capital can soon realize a neat little fortune.

Mr. and Mrs. Eben C. Peabody, former residents of this town, but now of Fitch Bay, Province of Quebec, have been visiting among their friends in this town. Mr. Peabody informed us that they had a very favorable season for their growing crops.

Officers Faxon and Hanson seized, on Monday last, from Messrs. Fairbanks & Neil's beer wagon, of Boston, which was standing in front of C. A. Spear's clothing store, on Hancock street, four to six bottles of stock beer, and six bottles of stock ale.

Officers Hanson, Faxon, Turner, Locke, and District Police Officer Thomas, of Weymouth, armed with search warrants, made an official tour to Squantum on Thursday, visiting Catherine T. Tripp, Dennis McGinn and John Nolan, who were there to mark that it was difficult to tell which company they were visiting, as all the companies received them with such hospitality. Foreman Bickers wishes us to express through our columns, his thanks of his company, for the valuable assistance rendered them by the Volunteer Engine Co. Bold Highway Robbery.

An outrageous attack and robbery was committed upon Mr. James Bell, driver of C. L. Farnsworth's bakery about quarter past seven o'clock, on Friday evening of last week, as he was returning home through Milton. He turned off Adams street that leads over Milton Hill, at Algerine Corner and went through a short piece of wood, Mr. Brooks' henry, towards the Milton Cemetery. Soon after entering the woods three men hailed him and wished for a ride to Mattapan, but he told them he was not going that way, and drove on.

Shortly afterwards, as he was leaving the woods, and his horse was walking a hill, three men came up with him, and are supposed to be the same three who were seen in the woods on Friday. Two seized the horse's head, presented revolvers, and a third ordered him to dismount. At almost the instant the robbers appeared, Mr. Bell, divining their intention before the order to surrender was given, pulled out a roll of bills from his vest pocket, about \$25, and threw them back of him among the barrels in the wagon. As he did not hasten to obey the order to step to the ground, the robbers, who were armed with revolvers, and the robbers holding the horse struck the animal a sharp blow, and went to their companion's assistance. Mr. Bell was quickly overpowered, his assailants administering a terrible beating. Most of their blows fell about his head, and he was severely bruised.

The wretches then gagged the prostrate man, dragged him over the stone wall and behind some trees, which bordered the road. Selecting a stout rope, they produced a rope and bound him to it, with his hands behind him. Then they proceeded deliberately to rifle his pockets, but they were sadly disappointed in their search. Although often taking home with him quite large sums of money, on this evening he had only about \$40, in addition to the \$35 concealed in the wagon. This the robbers took, as well as his watch and such other personal valuables as he had about him. The work was done quietly, and without a spoken word. The full moon furnished sufficient light for them to do the fiendish work thoroughly, but not enough for the victims to be able to get many points for identification.

Having stripped him of all valuables, the rascals departed, leaving the helpless man bound, as they supposed, securely, but by persistent wiggling and chafing the white cotton rope enough for the victim to be able to free himself. He succeeded in freeing himself. This accomplished he soon completed his liberation, and although suffering severely from his injuries he started for help. But, meanwhile, the horse had come alone, reaching the stable in Hyde Park shortly before eight o'clock.

The robbers wore long black coats, black masks and slouch hats. Only one spoke, and he very gruffly, so that there is nothing on which to base a positive identification.

Mr. Bell is a son-in-law to Mr. T. Dexter Pierce, of Quincy, and a gentleman of good reputation and of undoubted courage. He showed good judgment in saving a part of the money. The Selection of Milton have offered a reward of \$500 for the detection of the villains.

Obituary.

We regret to announce the sudden death of the Hon. Josiah Quincy, at this residence, on Thursday, the 1st inst.

Mr. Quincy, who has been a member of the state for one of its noblest citizens, a man who in every part of his distinguished career has illustrated the high qualities which have long marked the family from which he sprang.

The loss of Mr. Quincy, which among his townsmen and friends, will excite deep grief, will also be sincerely deplored by all who are acquainted with his long and honorable life, dedicated as it was in so marked a degree to works of public and private usefulness. Though the advanced age of Mr. Quincy could not but render his demise an event whose occurrence might at any time have been anticipated, yet the actual shock to the community seems hardly diminished thereby.

Our community were greatly surprised on Monday to hear of the death of Mr. Quincy, who was a member of the state for one of its noblest citizens, a man who in every part of his distinguished career has illustrated the high qualities which have long marked the family from which he sprang.

Our community were greatly surprised on Monday to hear of the death of Mr. Quincy, who was a member of the state for one of its noblest citizens, a man who in every part of his distinguished career has illustrated the high qualities which have long marked the family from which he sprang.

The loss of Mr. Quincy, which among his townsmen and friends, will excite deep grief, will also be sincerely deplored by all who are acquainted with his long and honorable life, dedicated as it was in so marked a degree to works of public and private usefulness. Though the advanced age of Mr. Quincy could not but render his demise an event whose occurrence might at any time have been anticipated, yet the actual shock to the community seems hardly diminished thereby.

Athletics at Adams Academy.

On Monday last, Oct. 30th, Adams Academy celebrated its Founder's Day the birthday of John Adams—by athletic sports, under the auspices of the Adams Academy Athletic Association. The weather was all that could be desired—a perfect Indian summer day—and there was a large and interested attendance of the friends of the school, in which it was pleasant to see the fairer sex preponderated.

Prominent among the contestants for the first event—the hundred yards—were called to their positions and sent off. The entries were J. P. Lound, D. Hitch, A. A. Allen, E. A. Fargo, D. L. Huch, W. S. Allen, F. B. Penrose. The start was an excellent one, and the race close to the end. Heard reached the tape first, in 11-1-2 seconds, with Hitch about two feet behind him, and Fargo close behind Hitch.

In the next event—throwing the base-ball—H. F. McIntyre won easily, by a throw of 272 feet. The other contestants were W. Penock, C. E. Lound, F. Ayer, W. S. Robinson and A. D. Westland.

For the mile run only three of the entries appeared at scratch: C. Penock, Carroll and G. F. Westland. They took the lead from the start, and kept it throughout, winning the race in minutes, 38-1-2 seconds. Westland renched his ankle, and dropped out in the second lap. Carroll pluckily kept to the finish; but Ayer had the race all in hand after the first half mile, and was remarkably fast for a rough and slow runner.

The long jump brought out W. S. Allen, A. C. Coolidge and J. P. Lound. Allen won easily, clearing 16 feet, 7-1-2 inches.

There were four entries for the next event—the 220 yards dash—Allen, E. Lound, E. Hoyt and W. F. Westwood. Hoyt won a close race in 29 seconds, with Allen an excellent second.

The time was remarkable, being faster than a second than that made at the Harvard Fall Meeting last year.

The sixth event—kicking the football brought out a crowd of contestants: B. Rice, both Lounds, Hitch, Westland, Carroll, Fargo, J. H. Slade, Jr., W. S. Allen, A. Johnson, McIntyre, W. S. Robinson. Westland won by a neat top-kick of 119 feet.

For the next event—the quarter mile run—there were three entries: Penrose, Hoyt. The race was one of the most interesting of the day. Penrose took the lead, and kept it till near the finish; but Ayer was close on his heels, and a blanket would have covered both of them all the way round. When Hitch twenty feet of the finish, the referee's pace told on Hoyt, and he lost his stride. Ayer was by him like a flash, and finished a good winner, in 1-2 seconds, with Penrose some distance behind.

So many contestants appeared for the hurdle race that the referee decided to run in heats. In the first at McIntyre, Heard and Slade started, and McIntyre won handily, in 21-1-2 seconds. Hughes beat Atwood in the second heat, in 22-1-2, but was beaten by McIntyre in the final heat in 21-4-2 seconds.

Heard and Hoyt were then started in the half mile run; but Hoyt still showed signs of the strain of his previous race with Ayer, and Heard took the race with much difficulty, in 2-4-2 seconds, 43-1-2 seconds.

The three-legged race brought out the entries: Slade and Rice, Coolidge and Hitch, Allen and Carroll, Coolidge and E. Lound, Keays and Scofield, J. P. Lound and Johnson. Allen won, in 15-1-2 seconds, over the 100 yards, in 15-1-2 seconds, with several pairs close behind him.

A potato race of 20 yards, with ten entries, concluded the programme. Harry Scofield, H. A. Everett, and Edwards started, and McIntyre won in 1 minute, 11-2 seconds, with Scofield second.

The judges were Messrs. Barrett, Elliot, Geo. B. Morrison, H. A. J. Holden was time-keeper. Much of credit for the success of the day and thoroughness of the arrangements was due to the energy and efficiency of A. D. Hitch, the Secretary of the Adams Academy Athletic Association.

After the sports, Dr. Everett entertained the members of the school and the guests of the day at lunch at the Academy Boarding House.

CRUSHED ACTORS. On Monday morning last, about one hundred persons assembled in Town Hall to hear a variety performance advertised for that evening. The performance was to be treated to donations, in the shape of stale eggs, pieces of water-melons, cigar ends, thrown from the gallery. After the sports of the actors had made their exit from the back door, taking with them the little money they had received, the mob then rushed over to the depot, succeeded in overtaking only one of the performers, the others having fled to the Old Colony railroad track, and there swear at the remaining one; above the imprecations and cries of vengeance could distinctly be heard the persistent supplicating entreaty, "Oh, Heaven's sake, gentlemen, be merciful." It is impossible that they should become of him but for the timely interference of officer Fernald, who appeared on hand, and immediately arrested the infuriated mob. He then "crushed" the actor under his protection, and allowed him to depart in the morning, on the 10-20 train, for Boston, conceiving over the fact that he had subjected without any bones being broken the infuriated mob to the indignities of a stage attire, which the crowd had

Resolutions of Respect.

At the last meeting of Co. I, Cunningham Rifles, of Broken in the following resolutions were passed in memory of their late comrade-in-arms, J. Elliott:

Resolved, That the assurance of the destroying and may be momentarily experienced by our comrades, but at times the summoned ones so unexpectedly, and the one called stands so close beside us, that at last it is hard to realize the departure. Such was the case with the late J. Ware E. Elliott, who on Oct. 10th, 1882, at Worcester, was summoned from his mortal dwelling place to his long rest, and to whose memory we offer the following resolutions:

Resolved, That never was this company called to mourn the loss of a more meritorious, upright comrade, a more open and frank, and a more generous disposed friend, and so be it with us all, that when we shall be called to join him beyond the river, there will be loving hands to lay us away, and loving hearts to keep our memories.

Resolved, That his obsequies, an acquaintance which will be found in our company's records, were solemnized in a manner to prove the love of his comrades.

Resolved, That to-day, as he sleeps in the quiet shades of Mr. Wollaston cemetery, there is not in all the hundreds of its inhabitants the remains of a more noble warrior, whose spirit beats in the breast of our friend, rest and peaceful be his rest!

Resolved, That we tender to the bereaved family and friends the assurance of our warm and most sincere sympathy in this great loss, looking with us to that reunion beyond the valley of shadow of death, where the trials and tribulations of this life will be forgotten and the glory of the better life will be our recompense.

Resolved, That a copy of these resolutions be read to the company, and when ceased, and that they also be placed on our company record.

Two hundred and thirty yards of mourning has been worn this season by Mrs. Joseph Davis, of Langdon, N. H., at the age of seventy-three, besides making her butter and cheese.

At this time last year winter coal flour were selling nearly 82 per cent higher than now. In 1880 prices were from twenty-five to fifty cents higher.

Poetry.
For the Patriot.
Retrospect.
I love, when the twilight shadows fall,
On the cool green earth to lay,
And rest the brown narcissus weed,
While my thoughts they roam away;
Till I seem to see in the evening smoke
That from my cigar doth rise,
A gipsy face with a wealth of hair,
And a pair of sweet brown eyes.
On those sweet brown eyes I often gaze,
Down the river still,
We down the river still,
I had named for her "The Little,"
Never a lily one half so fair,
Never true or fond as I,
As late as we used to stray,
On the gray sea beach to wander.
And I sigh, Ah, now, what a fool I was
To leave those hours in dreaming,
When those brown eyes, with a tender light
Were on me softly beaming.
Never a word of my love I breathed,
Though I longed and loved her,
For the maiden fair with the sweet brown eyes
Was my wife's youngest sister.

Miscellany.
In the Dark.
"Now, my little Truthie, you'd better
lay all this to heart."
This was the end of handsome Hal
Hale's long lecture to his pretty, co-
quettish sister Truthie. He lay in the
hammock upon the piazza before the
open door, and she sat upon the lower
stair in the hall, putting and playing
with a daisy chain. It had been a long
and unusually serious lecture, all about
Neil Gwynor, the last of Truth's sum-
mer lovers, whose heart she was play-
ing with as she had played with a score
of other lovers since the lovely season
at Mosses began.

"If Neil were a noodle like Fitz-
gerald, or a fool like Markham, Truthie,
I wouldn't care," Hal had said. "But
you just to amuse yourself at play-
ing hide-and-seek with a royal fellow
like Neil Gwynor was just splendid!"

She was a woman, and she knew well
enough that Neil Gwynor was "just
splendid!"

He had turned over in the hammock
and taken up his book. Truth had
twisted her chest until she looked at
him. She was still putting, but the flush
had died off her dimpled cheeks, and there
was a suspicious moisture in her blue
eyes. She did not speak. She could
not tell Hal that she was so much as a
friend, but she could not think of any-
thing further, she had said, her gold-
en head as high as possible in the air,
and her gaze wandering as far as it
could from the serious attention of his
brother.

They were such clear, frank, beau-
tiful eyes. They haunted her sleep that
night. She woke up and thought by
the moonlight, and felt very small and
mean. What did make her such an in-
sincere trifler she could not understand.
She knew that there were not many
men like Neil Gwynor.

Instead of being grateful for his love,
why had she created her head, like a
silly yellow bird, and declined to be
his? And he had not uttered an angry
or reproachful word—had not accused her
of flirting, called her "a heartless co-
quette," as the others did—only bowed
in silence and left her courteously.

But those clear, beautiful eyes would
not be forgotten. She looked a little
on her pillow, trying to declare that she
did not care.

And now, with morning, comes Hal's
serious interference, though he knew
nothing about last evening's scene.

She was really frightened by what
he had done, and dared not tell him—
good Hal, who was the kindest older
brother a naughty girl ever had; for
though she had said to herself, "Neil
will come back," even as she had said,
"Neil Gwynor, on his black horse,
Turk, rode slowly below the terrace,
and, seeing her, did not pause—only
raised his hat and passed on."

The season was at an end, the people
at the hotel were going home. What if
he went to New York and she never
saw him again?

A mist came over her eyes; the wind
soughed among the woodbine at the
door with a sound which seemed to her
shiver. Poor, remorseful little Truthie!

She sprang up and ran away, at last!
What if Hal should look around and
see her crying? She drenched her face
well with eau de Cologne before she
came down to dinner.

"Truthie," said Hal, carving the
joint, and helping her liberally to Ly-
onnaise potatoes by way of making up
for the morning's scolding—for he was
very fond of this little sister of his, and
very tender of her faults, good Hal!

"Truthie, we are invited to Mrs. St.
Rose's for to-morrow night."

The color which Truth had not been
able to rub into her cheeks appeared
brightly now. Mrs. St. Rose's dinner
party, the most delightful of all, the
Gwynors, who lived at a charming
place called Homparks, and twice a
year gave a large party, thus clearing
off all her social debts.

"She is rather late with her party
this year. I believe she has been wait-
ing for her niece to come down from
the mountains," said Hal, carefully
choosing a stalk of eury.

"Have you ever seen this Miss Myr-
tle?" asked Truth, glad that he was
not looking at her and finding out her
secret, she felt so miserably transpar-
ent, poor little thing!

"Oh, yes, I have seen her," replied
Hal, carelessly, dodging behind the big
bouquet of lilies in the centre of the ta-
ble, to prevent her looking at him.

"Pretty, isn't she?"

"Very."
"Have you seen much of her?"
"Considerable."
"Where?"
"Neil used to bring her to the as-
semblies last winter."
"Oh!"

The red faded out of Truth's cheeks
again. She had not been to the assem-
blies; she had a tendency to cough,
and the doctor had forbidden it, and
Neil Gwynor did not dance. Why then
had he taken this pretty cousin, Maud
Myrtle, to them? Obviously only to
please her. She was good dancer,
she had heard; and Hal, who was very
fastidious, pronounced her pretty.

Truth pushed away her meringue un-
tasted. The color did not come back
into the rounded cheek. She went up
stairs and tried to think what she
should wear to Mrs. St. Rose's. What-
ever it might be, she was sure Maud
Myrtle would be prettier. She was
very fashionable, and Neil had an eye
for dainty costume that she was not.

No sign of Neil that evening, nor all
the next long, bright day, though the
St. Rose carriage had gone by, Neil
driving with his beautiful cousin.

Miss Myrtle was beautiful. Truth
saw that she was a charming brunette,
with a cherry-red mouth and curling
black lashes. She was talking to Neil
with the most delightful animation, and
he was listening with an enjoyable
smile.

If she had been crying again, when
she came down dressed for the party,
elegant and a dash of pearl powder had
concealed all results about the pretty
eyelids.

She wore white, and knots of cherry
blossoms, and looked gentle and sweet
enough for a nun or a bride, Neil Gay-
nor thought, when he saw her.

He loved pleasantly. He had Maud
on his arm, he seemed devoted to her.
Truth thought.

"He finds her kinder than I, and she is
far, far prettier!" she murmured.
She felt as if she were choking, but
she must not be a baby there. She
forced herself to chat, and sing, and
eat ices, keeping for the most part with
Maud, as long as she was strangely proce-
ed, and spilled cream over ladies' dresses
and blundered in the most un-
usual way.

Truth asked him to take her into the
garden, as long as he did so. Part
was illuminated with Chinese lanterns,
and part in lovely moonlight shadow,
and the moonlight, and the fragrance,
and music, made Truth want to cry
before she had time to do so. Longly
at her heart was "so very hard to
bear."

Hal thrust himself down on the seat
of a little rose-covered arbor, with a
long sigh, which Truth observed and
asked him if his new boots hurt him.
He replied gravely that they did not,
although they were a very snug fit.

"You'd better run in and sing that
duet with Mrs. St. Rose, which you de-
clined to do awhile ago, while I smoke
my cigar," he said, and he was here
when you came back."

Perhaps she hadn't been nice to de-
cline; it wouldn't do to mope there,
anyway. Truth knew; she should cer-
tainly be crying—the music of the
hand hidden among the acacias was so
sad; so, never suspecting that Hal
wanted to be rid of her, she turned
away and flitted back to the parlors.
Again Mrs. St. Rose urged her to sing
with her, and this time she consented.
But the words faltered and the light
dazzled, for Neil, with Maud upon his
arm, went out as she came in.

After the song, she flitted desperately
with Bert St. Rose for twenty min-
utes, and then slipped away to rejoin
her mother. The editor of course was

A Large Audience.

The People's Course of Lectures and Entertainments opened last Saturday evening grandly. Into the Town Hall which is calculated to hold at most 700 persons an audience of 800 was packed. There was no confusion however, and the packing was in no degree painful. Many young men had to stand, but they enjoyed it, they saw all the better for it, and, in all their stately proportions, were seen all the better. The audience was a fair representation of the townpeople; as many ladies were there as gentlemen; the rich and the poor met together, and music and mirth charmed them all.

The entertainment was furnished by the Emerson Concert Company, and was just what those who knew its make-up expected; brilliant in its instrumentation and song, and in its humor delicious. The cornet playing of Mr. Walter Emerson was of course thoroughly enjoyed, and was every time enjoyed. Mr. Glider's piano playing was inspiring, the singing of Helen E. M. Carter and of Mr. William H. Lee, was fine, and of Mr. Cobb it is enough to say that if he had been as fat as the could be, he would not have been guilty of homicide to the extent of 800 persons. All in all it was the best ten persons' worth of entertainment the town has ever enjoyed.

But it is not the last; more is to come. This Saturday evening the entertainment will be no whit inferior and in some respects superior. By fortunate chance the committee were able to secure the services of the most charming public reader in America, Miss Couthoul. Yes, we are authorized to say that for simple, natural and effective reading she stands second to no other lady in America. When she appeared in Music Hall about a month ago, she drew more by a third than any other of the course, and created more enthusiasm. She will be assisted by Miss Mary J. King of Wollaston, so well known for her abilities as a singer.

Following this, two weeks later, will be a lecture by Mr. F. J. Gillman on the "Conquest of the Nile, and the War in Egypt." It will be beautifully illustrated by pictures thrown upon a large screen by a powerful dissolving stereoscope. Mr. Gillman ranks with Woodford in the excellence of his views and the truthfulness of his descriptions and his history.

Accidents.

As Mr. William Faxon was in the act of getting out of a wagon in front of Sanborn & Danon's store on Wednesday evening, he caught his foot in the wheel and fell, striking his head and shoulder and one of the small bones of the thumb was broken. Mr. Faxon is a very industrious man, and we sincerely regret this misfortune for his own and family's sake, but trust a few days will find him in working order.

On Friday last week, the miller at Messrs. Loud & Co.'s, had the misfortune to have a stick of timber fall on him which broke his collar bone. We learn that Mr. Benson, who has the care of Mr. John R. Graham's horses, was driving one of them on Tuesday last, that horse reared and plunged his feet into a boggy in which a lady was seated, causing her to be injured and the lady quite badly about the shoulders and back.

GRAND AFFAIR. The dance given by the American Legion of Honor, on Wednesday evening of this week, was a grand success. Everything passed off in a satisfactory manner, both to the managers and those present. A better and more social party has seldom been seen in this place. The hall was very handsomely decorated. At the head of the hall, several long and low tables were placed, and the wall, was the character of this Council, with large flags on either side. On the stage in front and on each of the window-sills were potted plants from the green-houses of Mr. A. B. Packard. The music consisted of five pipes, led by Mr. Monk, and was of an extra quality. The party numbered about ninety couples. The success that has attended the first attempt of Hancock Council should encourage them to give another later in the season.

The next meeting of the Legion of Honor will be held on Tuesday evening next. A FINE MACHINE. The new and powerful engine, built by Messrs. Badger Bros., for the grain store, near the Quincy station, has been tried this week and found to work like a charm. These machines, having had many years of experience, understand their business, and take pleasure in furnishing business, and take pleasure in furnishing business, and take pleasure in furnishing business.

LABOR AUCTION SALE. On Monday, Nov. 27th, Mr. J. W. Lombard, of this town, will sell the rich and valuable personal property belonging to the late Albert Tirrell, at the residence of the deceased, in South Weymouth. This sale will be an immense one, occupying three or four days, and cannot be enumerated in an advertisement. It will consist, in part, of carpets, paintings, statuary, grand piano, what-nots, parlor sets, chamber sets, mirrors, book cases, antique furniture, French clocks, table linen, blankets, &c., &c. The goods are all of the very best quality, and the readers attention is invited to a careful perusal of the advertisement.

QUINCY METAL. The large number of persons who hold policies in the Quincy Mutual Fire Insurance Company, will be pleased to learn that the tenth anniversary of the great fire finds it with a capital restored, even larger than that swept away by the great conflagration, and which it had been more than twenty years accumulating. For the past six years it has paid fifty per cent. return premium on all five years' expiring policies, and has had a constantly increasing surplus over all liabilities, which is no larger than ever before in its thirty-one years' business—of \$275,000—Boston Beacon.

SILVER WEDDING. Quite a large number of Mr. and Mrs. John W. Hall's friends, visited them last evening to celebrate the twenty-fifth anniversary of the marriage of this worthy couple.

The committee of arrangements of the People's Course are to meet in the Town Hall, at 6 o'clock, this Saturday evening.

The ceiling of Mr. E. B. South's periodical store is being sheathed which will make it much lighter and neater looking.

Mrs. Eunice Bent's estate on Cottage avenue, has been quite improved by shingling and repairing the roof and fence and painting the house.

The committee of arrangements of the People's Course, and the other gentlemen behind them, are determined to give first class entertainments and lectures cheap.

Mr. William D. Webb left by the Shore Line Monday night for New York. He sailed on Thursday for Europe, on business for his employers, Jordan, Marsh & Co.

The Universalist Society will hold a festival at Faxon Hall, on Wednesday evening next. Every member of the society is invited to be present to welcome their new pastor.

Gov. John D. Long and Department Commander George H. Patch, accompanied by his staff, are expected to be present at the opening exercises of the G. A. R. fair, to be held next month.

Walker's dancing school was largely increased in membership on Tuesday evening, the beginning of the last fall. Advanced pupils will be admitted for the next five lessons and half for \$2.50.

The late Mr. Josiah Quincy was commander of the Ancient and Honorable Artillery Company more than fifty years since. A more popular and efficient commander that venerable company never has had.

We learn from the Milford Journal that Rev. E. A. Perry, late pastor of the Universalist Church of this town, fell from a wagon in Palmer, his present home, last Friday and dislocated his right shoulder.

The officers of the Norfolk County Division, G. A. R., will make their annual visit to Paul Revere Post 88, G. A. R., next Thursday evening. Delegates from the several Posts in the county are expected to be present.

Mr. George N. Nash, narrowly escaped being seriously injured on Wednesday afternoon, by the falling of a large shelf which was heavily packed with hats and coats, at the Boston Branch store. He was severely bruised about the head and shoulders.

Mr. Joseph W. Lombard will sell on Thanksgiving afternoon, a valuable piece of land on Elm street, together with the buildings, known as the Totman Market. This sale offers a grand chance to any one having capital that will wish to invest, or to any one wishing to engage in the provision business.

The Budget says:—The late Hon. Josiah Quincy always spent his summers on the family estate at Wollaston, in Quincy, where his death occurred. This estate was purchased from the Indians by the Quinys in 1635, and has ever since been the family home, descending from father to son in regular succession.

Mrs. J. R. Hudson, of Philadelphia, a lady of culture, a graduate of two medical colleges and the widow of a physician, is to deliver to the ladies of Quincy three medical lectures. She has already delivered them with marked success in Cohasset, Weymouth and Braintree. She comes well recommended and refer to Rev. Messrs. Norton, Sawyer and Wilson. Those attending will doubtless receive beneficial instruction. See advertisement.

District Court, Quincy. The following criminal cases have been before the Court this week:—

Michael Buckley, of Quincy, for being drunk. Fined \$1 and costs.

John Foley, of Quincy, for a similar offense was fined \$1 and costs.

Alice Cullen, of East Milton, for selling intoxicating liquors, was fined \$50 and costs. From which sentence she appealed.

James E. Brennon, of Quincy, accused on Cornelius Sullivan. The case was continued until Monday next and he was held in \$3000 for his appearance.

Michael Madden, of Milton, for being drunk. Fined \$1 and costs. For non-payment was committed.

Michael Mullen, of Quincy, for being drunk, was fined \$1 and costs. Committed.

Asael Bassett, of Braintree, for an assault on Frederick W. Peniman. The plaintiff acknowledged satisfaction, and the defendant was discharged on payment of costs.

BOSTON JOURNAL. This favorite New England weekly commences its fiftieth volume with the new year, as will be noticed by an advertisement in our columns today. It challenges comparison with any other paper, in the scope of its intelligence with those in vogue in this country, and in the quality of its news.

Gov. Oliver Ames, Lieutenant Governor-elect, gave a grand reception to the Republican candidates in the Second Congressional District on Monday evening last. Hon. John D. Long, Gen. Butler and Robert H. Bishop with other notables were present. Henry H. Faxon and William G. A. Pattie from this town were among the guests. Mr. Faxon, as usual, made a short speech.

Quincy Point Items.

Friday afternoon of last week, while Master Joseph Delory, who attends to the street lights, was attempting to fill one of them, a quantity of the fluid which was in a measure became ignited and exploded, covered him in flames. His face, hands and arms were badly burned and his clothing nearly destroyed. Fortunately he inhaled none of the fire, neither were his eyes injured and under the care of Drs. Gordon and Donovan he is improving.

The Sabbath School Concert given in the Christian Union Church, last Sunday evening, was attended by a large audience. The exercises were an improvement on the previous one. Mr. Theophilus King, Jr., addressed the children and gave much good advice.

Rev. Samuel Kelley preached in the C. C. Church, and Rev. Geo. J. Carlton, in the Baptist Chapel, last Sunday.

The first meeting of the Quincy Point Temperance Association, since the vacation, will be held in the vestry of the Baptist Chapel next Wednesday evening. A full attendance is desired as business of importance will be brought up.

The fair for the benefit of the Christian Union Church, which was held in the vestry of the Baptist Chapel Wednesday and Friday evening of this week, was well patronized, and there will be quite a satisfactory amount of money realized for the benefit of the Church. The ladies having the affair in charge deserve great praise for their constant efforts to make it a success.

There was a meeting of a committee to arrange for a fair, for the benefit of the Baptist Church, to be held within a few weeks.

Last Saturday was pay day at Moon Island. Owing to the fact that several arrests were made in Neponset, the number of sewer men "taken in" from Atlantic was less than usual.

Mr. Cephas Dwyer moved into his new house, on Billings street.

On Monday evening Mr. Thomas Lowry, while passing along Hancock street, near Neponset Bridge, stepped into a hole in the sidewalk, close to the fence, and seriously injured his leg. Dr. Ruggles, of Neponset, who attended him, is quoted as saying that he will be unable to resume work for at least a month.

Last Tuesday evening the West Quincy Dramatic Club, under the auspices of the Catholic Society, of Atlantic, gave an entertainment in the Schoolhouse Hall. There was a large attendance, and the proceeds are to be added to those received from the fair which was given on the same evening.

The town pump in front of the Atlantic house is out of order, and we hear that the expressmen who travel over the road, and the people in that vicinity, are surprised at the action of the authorities in allowing it to remain in its present useless condition. O. K.

On Saturday last, a son of H. C. Litchfield was bitten in the hand, by a dog, while passing along the street. This is the third child, bitten by the same animal, and it seems about time that he was removed.

Monday evening the Oratorio Society of this place, to the number of fifty, visited Boston to listen to the rendition of "The Creation," by the Handel & Haydn Society, and judging by the encomiums, should suppose they returned highly pleased.

One of our worthy constables, had a small circus on the square, near Atlantic, this week; coming out, minus part of one of his war weapons. For further information inquire of P. R. O.

At the annual meeting of St. Mary's C. T. A. and M. R. Society held in their hall on Nov. 12th, the following named gentlemen were elected as officers for the ensuing year:

Obituary. Mrs. Abigail Hayden Prescott died suddenly yesterday morning at her residence on Spear street, at the age of 78 years and 6 months. She was a daughter of the late Mrs. M. March, and had resided nearly all her long life in Quincy. She has been quite smart this fall, and was able to be out of doors nearly every day until within a few hours of her death. She was a member of the Universalist Church, and had always taken an earnest interest in the affairs of the society.

Gen. Neal Dow, the famous Prohibition leader, is now about seventy-eight years old, but he is so well preserved that he does not look to be more than sixty. He is of medium height, rather stout, and wears heavy side whiskers, which, like his hair, are silvered with age.

Taking all the world, the United States in 1878 had the greatest mileage of railroads in proportion to the population, having a little over twenty miles for each 100,000 persons. In Europe, Sweden led, with six and a half miles to every 100,000 of her population.

The Bell telephone patent would, it is considered by those competent to form an opinion, be cheap at \$100,000. The United States Telephone interest in the United States are estimated at \$15,000,000, and double every year.

A few in a popular New York church was sold this week for twenty-five hundred dollars. Some years ago a few in one of our oldest Boston churches was sold for four thousand dollars.

Quincy Associated Charities.

The annual meeting of this body was held last Thursday in the School Committee Room at the Town Hall. There was a fair attendance of members. In the absence of the Secretary, Dr. W. L. Faxon, a temporary appointment was made of Mr. J. L. Whiton.

The President, the Rev. D. M. Wilton, then read the report of the Directors, as follows:—

The Associated Charities have been in operation now something short of one year, although this is its annual meeting. The time has been enough, however, to prove clearly that their methods are right, practical, and efficient. There were three things which the Associated Charities aimed at the outset to accomplish: 1. the active cooperation of the charitable societies of the town and the Overseers of the Poor, 2. the thorough investigation and complete registration of all cases of charity, 3. the elevation of all the poor, with whom it is possible, to permanent independence, and the kindly, judicious care of the remainder. These aims have all been secured.

From the beginning there has been the heartiest, the most sympathetic co-operation of all the general charitable societies and the Overseers of the Poor in the work of the Associated Charities. They have worked together in the best spirit for the reduction of pauperism, and the proper relief of the needy. The experience of the Overseers of the Poor and of Mr. George A. Ordway, Superintendent of the Almshouse, has been freely tendered, and they, in turn, have been always ready to receive suggestions. The vote of the town that there should be no cooperation of the Overseers with the Associated Charities could not have been more comprehensively carried out. The result has been that all cases of need in the town have been considered by a single board, which contained representatives of all the general charitable societies; that the likelihood of unworthy poor, going to different societies and individuals to get a rich harvest of doles, has been altogether reduced, and that the most careful caring for the poor has been done in a business-like and economical manner.

As soon as they were organized, the Associated Charities formed a conference of visitors, to carry out its work in detail. Many ladies, as many, indeed, as were needed, volunteered as visitors. The President acted as Chairman of their conferences, and Miss M. E. Hardwick was chosen Corresponding Secretary, and Miss Alice D. Spear Recording Secretary. To each visitor was given one or two cases of charity, and she, having studied this closely, both as to its causes and its cure, brought her parts to the conference. Here they were considered, registered by the Corresponding Secretary, and the visitor, and the manner of it, suggested. This work of investigation, careful registry, wise decision and faithful execution are the four corner stones of scientific charity. Fairly, beyond question, the latter have begun their allotted tasks. Since last January, when they first came together, they have had twelve meetings, with an average attendance of eighteen. What they have accomplished is best told under our third division.

They had about fifty-five cases to investigate or consider. Of these four died, twenty-five were cut off as unworthy relief, seven were helped to self-support, two were removed to almshouses, leaving eighteen to be helped. These eighteen fell into two classes: the old and seriously ill, of whom there are eight, and who will need continuous aid; and the temporary cases, of whom there are ten, who, when they first came together, they have had twelve meetings, with an average attendance of eighteen. What they have accomplished is best told under our third division.

What they have accomplished is best told under our third division.

This record is, certainly, a good one, and it does not, on the surface, tell of the wise counsel and sympathetic encouragement which the ladies have given to the worthy poor. They have sought and obtained needed work for many who were able to do it; they have awakened the love of order and cleanliness where it was lacking; they have furnished reading to those who were confined to the house by illness; they have carried fruit and flowers to the sick; they have made themselves interested, indeed, in the entire life of those under their charge, and have done for them all that a kind heart and good judgment could dictate. Besides this, they themselves have been benefited by being brought into such relations with the poor, and by learning right methods of relief. It is most true of this new charity that it is twice blessed; it blesses him that gives and him that takes.

Such personal work for the poor, conducted in a humane, yes, even in a religious spirit, and on a high level of intelligence, commends the Associated Charities. Sentiment is employed, but not alone,—joined to it are experience and judgment. Temporary relief is afforded under their sanction, but that is not the sole aim,—united with it is the more important aim—the prevention of pauperism and the permanent independence of the poor.

In addition to the work above indicated, the Associated Charities have assisted the poor, officers in need of pleasant homes for eight or more children, who were cast helpless upon the mercy of society, and their visitors have taken counsel together with the matron of the almshouse in her excellent management of the internal affairs of that greatly improved institution. And here the Associated Charities would heartily commend what the authorities have done in buying provisions and groceries at wholesale, and themselves distributing them to the indigent. It is a great stroke of economy to the town, and at the same time affords to the poor more and better goods for the amount appropriated to them.

The Associated Charities can be made even more efficient by increase of their membership. They do not need much money to carry out their work, as their principle is not to give alms, but to help; still, they need the sympathy and cooperation of the community, which may be manifested in a large membership. This sympathy with their work would also be expressed if townspeople, instead of helping applicants who come to their door, would send the names of them to a visitor or officer of the Associated Charities. If, however, some people prefer to do their charity in the employment of Adams & Co., having a large store of goods on High street.—Daily Star.

PURCHASERS OF HOLIDAY PRESENTS will be interested in the announcement in another column of Mr. C. W. BALDWIN, of Boston, who has an array of Gifts most tempting to the eye, which he is offering at retail at wholesale prices.

After the Disaster. To the Publishers of the Patriot: No intelligent Republican can dismiss the recent overwhelming defeat of his party without reflection upon the causes thereof. The Quincy Patriot.

SATURDAY, DEC. 2, 1882.

Thanksgiving Day.

Thursday will be celebrated as a day of pleasant reunions. Friends will gather around the festive board and homes will be made joyous and happy. According to our usual custom we have issued the PATRIOT for the day preceding Thanksgiving. A glance through our stores and markets shows that our business men are alive to the interests of their patrons, and tables will be bountifully supplied with turkeys, chickens, fruits and other goodies.

The People's Course.

A larger audience than ever before attended Mr. Gilman's lecture last Saturday evening. It is probable that the Town Hall never was fuller at a lecture, every bit of standing room was occupied. The great gathering Mr. Gilman kept interested from the beginning to the end of his lecture. While his fine pictures (many of them colored to nature) engaged the eyes, his lecture full of interesting details, engaged the ears. The marvels of art created by the followers of the prophet, and the gigantic remains of the most ancient Egyptian civilization were finely exhibited. He touched, also, upon the late war in Egypt, showing the scenes of it and magnified photographs of some of the chief actors in it. We have heard nothing but unqualified praise of the lecture and its illustrations. In accordance with the plan of the committee to have variety in the course, there will be a change from grave to gay at the next. The Lotus Glee Club will furnish entertainment assisted by a pianist and popular reader. Some excellent music will be anticipated as well as some sparkling humor. The entertainment will be on the high level thus far maintained.

FOR MAYOR OF CHELSEA. Mr. Thomas B. Jones, son of the late Peleg F. Jones of this town, was nominated at the Citizens' Convention on Monday evening for Mayor of Chelsea. The Boston Journal of Tuesday morning says: "Mr. Thomas B. Jones, a well known in Chelsea, having resided there about twenty years. He was born in Quincy in December, 1839. During the war he served as a Sergeant in the Eleventh Massachusetts Battery, receiving an honorable discharge after three years and nine months' service. After leaving the service he engaged in the furniture manufacturing business, but of late years has been of the firm of T. B. Jones & Co., house furnishing dealers in Boston. Mr. Jones has had considerable legislative experience, having served two years each in the Common Council and Alderman Board, and in 1880 and 1881 was a member of the Legislature. He is a thoroughgoing business man of much executive ability, and is elected will undoubtedly make an excellent Mayor."

FIRE. About four o'clock on Tuesday morning Mr. William Webb discovered a fire in his new greenhouse, which fortunately had made but little headway at the time of its discovery, and by hard fighting it was kept subdued until the steamer drenched it out. The alarm was given from Box 35. The greenhouse had but just been completed, and was stored with choice roses, verbenas and other plants, which were killed. There was no insurance on the building or stock, and Mr. Webb has sustained quite a severe loss which he estimates at \$1500.

FIRE IN BRAINTEEE. At 2 o'clock Sunday morning a small unoccupied house, with outbuildings, on Pond street, belonging to Eli Hayden, was burned. The cause of the fire was the burning of a stove. The loss was \$400. At 6 o'clock in the evening a barn and barn, but a short distance from the ruins of the first fire, owned and occupied by William P. Hayden, an unoccupied house, was burned. Loss \$1500; insured for \$1000. Both fires are said to have been incendiary.

Auctioneer Lombard will have a hard time of it this week. Three days at South Weymouth; Thursday the Totman market property on Elm street, and Friday a wood auction. At Weymouth he had very large numbers of many of the articles sold for all they were worth; but very cheap. He expects to see many capitalists at his sale on Thanksgiving afternoon.

SUDDEN DEATH. Mr. Bernard Mundy, who boarded and roomed in the house of Mr. James Sullivan, on Water street, fell down a flight of stairs on Sunday morning, when found was dead. Death it was thought, resulted from hemorrhage from a blood vessel in the head, which was caused either by paralysis or concussion at the time of the fall.

TIGER BALL. The thirty-eighth annual ball of the Tiger boys, which comes off on Thanksgiving night, will be a grand affair. The managers have made every preparation to have this one of the most enjoyable occasions of the season. A large party will be present.

A LARGE TRACT. Two gentlemen from Bridgeport, Ct., are said to have purchased about sixty square miles of forest land in the Adirondacks, and propose to cut off the timber. To transport their lumber they will construct a railroad from St. Regis Falls to some point on the Ogdensburg and Lake Champlain Railroad at an estimated cost of \$400,000.

THE PRESIDENT STATED THAT FROM all he could observe the restaurant was admirably conducted, and that spirituous liquors were forbidden. Mr. Faxon's resolution was then put to a vote and the chair declared it to be carried.

THE COMMITTEE ON COUNTING VOTES for Directors reported that the votes cast represented 15,572 shares, and that the following had the requisite majority: Charles F. Choate, Cambridge; Frederick L. Ames, Easton; Thomas J. Borden, Fall River; John S. Bratton, Fall River; Samuel C. Cobb, Boston; Fred Crocker, Taunton; Francis B. Hayes, Boston; George Marston, New Bedford; William J. Rote, New Bedford; John Russell, Plymouth; Royal W. Turner, Randolph; Elisha W. Willard, New Bedford.

GOVERNOR CORNELL, of New York, has appointed Jennie Turner a notary public. This is the first instance of a woman to that office in that State.

A Mississippi man has discovered that an excellent quality of sugar can be made from sweet potatoes.

Brief Locals.

There were three deaths in this town on Sunday last.

Services will be held in several of the churches Thanksgiving day.

Religious services will be omitted at the Quincy Home on Sunday next.

Rev. Mr. Howe of Brookline, exchanged with Rev. Mr. Cotton on Sunday.

Joseph W. Lombard sells on Friday, Dec. 1st, twenty-six acres of wood in West Quincy.

We are pleased to learn that Mr. Lorenzo D. Goodridge is recovering from his recent severe illness.

Snow commenced falling about six o'clock Sunday evening and there was a considerable quantity fell during the night.

The largest number of books given out since the removal of the library to the Crane Memorial Hall, was on Saturday last.

The afternoon are awful short, but they have, we are pleased to say, got to the shortest, or nearly so; decreasing but two minutes more before they commence to lengthen.

It is suggested that those who wait outside the Town Hall for the second will be disappointed by the People's Course form in line. This will avoid crowding and facilitate the sale and taking of tickets.

Miss Carrie Sillaway of Canton, will teach the Quincy system in a private school at Poughkeepsie, N. Y., recently established by a number of citizens who desire to see the new system adopted. — *Needham Journal*.

George W. Penniman, formerly secretary of the reform clubs of this State, has been appointed district secretary of the constitutional amendment committee of Minnesota, and will have charge of the work in the third congressional district, a territory containing eleven counties and 255 cities and towns. — *Sunday Globe*.

The people have generously taken advantage of the entertainment offered in the People's Course. We hope they will continue to do so, for this is an excellent opportunity to get amusement and instruction of the best at cheap rates. No better enterprise of the kind has ever been started in Quincy. Especially should the working people, who have neither time nor money for expensive entertainments in Boston, seize this chance. We understand that the committee are determined to give these first-class entertainments as long as the attendance upon them shall warrant. They have in view lectures and entertainments which undoubtedly will satisfy all.

Old Colony Railroad. The annual meeting of the stockholders of the Old Colony Railroad Company was held in Boston on Tuesday, President Charles F. Choate presiding. The records were read by the Clerk, George W. Penniman, and reports were made by the President and the Directors. The annual report of the Directors was accepted and placed on file. Mr. Beal, of Kingston, moved the following:

Resolved, That the President, Superintendent and Directors be and they are authorized to issue, in addition to those already issued, coupons or registered bonds or notes at their election, to an amount not exceeding \$500,000, to provide means for funding the floating debt of the corporation, and for the payment of money borrowed for any lawful purpose, in sums of not less than \$100 each, payable at periods of not less than twelve months, and not exceeding six years from the date thereof, and bearing interest at thereto not exceeding six per cent. a year, payable semi-annually, in the manner provided by law.

The resignation of Mr. Seth Turner as a member of the Auditing Committee was submitted, and a committee of three was appointed to take action in reference to it.

Mr. H. H. Faxon, of Quincy, moved the following resolution:

An Important Will Case.

An important will case before Judge White of the Norfolk County Probate Court has resulted in the setting aside of a will on the ground of insanity and undue influence. The circumstances were as follows. On the 23d of last September, David L. Sterling, a prominent boot and shoe manufacturer of Weymouth, died from blood poisoning, the termination of a disease which had troubled him for the past twenty-five years. His death occurred on Saturday. The previous Tuesday he made a will bequeathing all his property, valued at about \$20,000, to his wife Lucy C. Sterling and his infant son. He was married to his second wife a year before and nothing had marred their happiness. When he was last taken sick his wife attended him until she, too, was obliged to give up on account of illness. On Friday, or three days after the making of the first will, he sent for his lawyer and ordered him to draw up a second will. By its terms the bulk of the property is given to outsiders. The homestead, adjoining land and horse and carriage were bequeathed to the wife; \$5000 and one horse to John H. Plant, an employee, cook, buggy, watch and chain to his son-in-law, Edgar C. Porter; \$500 each to Hannah T. Doty, Nellie Sprague and James T. Pease, his nurses. All the residue of the estate was to go to his infant son. By the first will the wife was made executrix and guardian of the child; by the second, Mrs. F. W. Lewis and John G. Worster were made executors and guardians.

The second will was contested by the widow, on the ground of insanity and undue influence. John F. Kilton, Esq., appeared for the contestant and Henry Wardwell, Esq., for the legatee. The estate was not large enough to pay all the bequests of the second will and the debts against the estate, and have anything remaining, so that by the terms of the will the son and heir was cut off with nothing, while \$5000 went to a man who had no claim on the property.

Several witnesses were summoned by each side, among them being the three witnesses to the last will. One of these testified that he considered Mr. Sterling not in his right mind when he drew up the will; the others said that he was perfectly sane. Mrs. Doty, his nurse, was summoned by the legatee and testified as to the condition of the testator. At the close of her evidence the Court said that she could not say whether Sterling was or was not in his right mind when he drew up the second will. The contestants showed that Sterling and his wife had always lived happily together and that up to the time she was taken sick she cared for him. On the Thursday after making the first will he was very delirious, and that the committee of one of the jurors showed that Sterling was not in his right mind when he drew up the second will. Poetry.
Dr. Watts on the Period.
O'er my lot the poor his pride,
Though rich in Stocks and Bank note art,
Nor deem the purse with naught inside
Asureth a contented heart;
For ne'er to call a debt thine own
Is but a mortal still to be,
And oft a sting of grief is known
Unto the greatest prey.
Though in the flaunting pauper's lot
No mad'ning railroad shares intrude,
Although the pauper's mind is not
With wild trust compassed imbued;
Yet North Pacific companies
Can scarce for perfect peace avail.
And more is needed to be blessed
Than not to know Pacific Mail.
The ever-impetuous soul,
Without a penny to his name,
In jeering poverty may roll,
And make the wistful for the same,
While at his neighbor's dearest core
Exists, perchance, a sadder blank
Than if he owned thy hoarded store,
And had it in a Savings Bank.
Then bear the sorrows of thy wealth
With many fortune and tact;
Northwestern leaves thee yet thy health,
And Western Union may react.
More ways to happiness there are
Than thou dost to a dollar worth,
And 'twill hold to wait for gain,
Excellent beggary from birth.
Miscellany.
Poor Mrs. Perry's Mistake.
"Good morning, Mrs. Perry. Why, how busy you are! What does all this mean?"
"Busy! I should think I was, Mary, every room in this house is turned up side down. Haven't you heard the news? I thought I told your mother about it last week. Why, our Fred is engaged, and is going to bring his lady home for a visit next month. Of course I want everything to look nice, and I've got six months' work to do, to get ready for them. I declare, I'm tired to death already," and Mrs. Perry dropped into a chair to get "one long breath" before she went to work again, while Mary, her next door neighbor, stood looking at her with pitying eyes.
"I wouldn't do so much," said Mary after a moment's silence. "You will be all worn out when they come, and won't enjoy their visit at all. Fred isn't bringing his fiancée home to show her the house, but to let her become acquainted with you and all, and I'm sure you want her to see you at your very best, now don't you?"
"Oh, yes, of course," Mrs. Perry assented mildly.
"After she gets here," continued Mary, "you won't mind her a bit probably. She will seem so like one of your own family. I remember how we felt when George wrote that he was going to bring Julia home for a visit. We thought, just as you do now, that we must have everything in apple-pie order. But we couldn't, you know, for mother was very sick when they came, and for two weeks before, and we were all in confusion. But dear me! Julia didn't seem like a stranger from the minute she stepped into the house. She took us just as we were, and I really believe her coming did mother more good than anything else in the world." "Yes, I know," said Mrs. Perry, "but a person's previous station in life makes such a difference."
"What?" The color came into Mary's face as she spoke, and her eyes flashed ominously, but Mrs. Perry did not notice it.
"Why—I thought—didn't I hear that your brother's wife supported her self before she was married?"
"Mary had recovered herself now. "Oh, yes," she answered quietly, "what was a clerk in the Treasury Department at Washington for some years."
"Yes, that is just what I heard," said Mrs. Perry. "Well, you know Lucia has never been used to anything of the sort. She has been brought up in luxury. Her father is very wealthy, and they are highly connected. You must run in and see her, Mary, when she comes," she added, in a patronizing tone.
"Certainly, I shall want to see her. I know she is real nice, or Fred wouldn't have chosen her for his wife."
With this pleasant remark, Mary bade Mrs. Perry good morning, and ran home through the gardens belonging to the two houses. A queer smile was on her face, and by the time she reached her mother's room she was laughing heartily.
"Oh, mother," she said, in answer to an inquiring look, "Mrs. Perry is so funny. What do you think she just said?"
Mary repeated the conversation held in Mrs. Perry's busy kitchen, which seemed to amuse her mother as much as it had her.
"Poor Mrs. Perry," said Mrs. Kent, quietly. "She always looks at everybody's money value."
The Kents and Perry had lived neighbors for twenty-five years; thanks to Mrs. Kent's charity and forbearance, they had always been on excellent terms.
Mrs. Kent's greatest desire was to be of use in the world, and as Mrs. Perry gave her frequent opportunities for the gratification of this desire, both were well satisfied. Mrs. Perry had always been subject to occasional attacks of "aristocratic fever," as Mary Kent called it, but measles in her family or any other domestic upheaval was sure to cause a rapid recovery. And as her neighbor lived on a plain above, such little weaknesses, the intercourse between the families had always remained pleasant, and everybody spoke of them as "such good neighbors." Mrs. Perry was still busy with her preparations for company, when her husband came home one day and remarked that George

Kent was coming on from Washington. "They say he has been offered a first-rate position. There's an expedition going abroad on some scientific work, and they want him to go in charge of it."
"Is that it?" said Mrs. Perry, in a derogatory tone. Her respect for scientific research was not very great. "I suppose he'll take it, won't he? Is there any salary attached to it?"
"I should say there was," said her husband. A cool ten thousand a year, besides his traveling expenses."
Mrs. Perry opened her eyes. "How in the world did George Kent happen to get it?"
"They say he's the best man for it. Lots of the big scientific men in Washington were after the place, but it was offered to Kent without his even putting in an application. It will be a mighty good thing for him."
Mrs. Perry looked thoughtful. "I wonder if his wife is going with him."
"Yes, his father told me that George was going to leave his children here with the old folks, and he and his wife were going to make a kind of wedding trip of it."
"Well, if he's coming up in the world, he'll think more about his wife's position, I guess, than he ever seemed to yet."
"Why, what's the trouble with her position?" says thought George Kent had got a first-class wife."
"Why," said Mrs. Perry, "she worked in the Treasury in Washington for years before she was married. Mary Kent told me so herself."
Mrs. Perry looked at his wife mischievously. "O, wife, wife, don't forget old times." Her face flushed angrily, but she made no reply. She had learned wisdom by experience.
The day came at last when the Perry mansion was quiet once more, and the staid, fastidious housekeeper would certainly have pronounced it "ready for company" from garret to cellar. A new carpet of most aesthetic hues covered the floor of the spare chamber. The old furniture, neither new enough nor old enough to be called "old-fashioned," was replaced by a chamber set of the newest and most antique design. Various pieces of artistic ebony were scattered about the house, while the smell of fresh paint and varnish was everywhere perceptible.
Even Mrs. Perry's afternoon costume was new, but she herself looked tired and anxious as she sat at the parlor window, watching for the carriage which had been to meet her son and daughter.
We will leave her there a moment and look into the other house.
The last two weeks have been busy ones here also. Mrs. Kent and Mary have been getting into the spring sewing and house-cleaning done, in order to have plenty of leisure to devote to the dear ones who are coming home.
On this particular afternoon they are sitting in the library with their work in their hands, but both ladies are evidently in an idle mood. Their eyes are turned to the window instead of upon their work. It must be that they too are looking for guests.
At last the old stage-coach came lumbering up from the station to deposit its load at Mr. Kent's gate. A lady and gentleman alighted with two children, little two-year-old Charley, and demure Miss May, with the consciousness of her five years in every look and step.
Aunt Mary rushed eagerly down the walk to meet them, while the dear old grandma followed more slowly, her soft gray eyes beaming a lovely welcome upon them all.
In the meantime Mrs. Perry had left her post of observation by the window to give one more glance over the house. She had scarcely resumed her seat when the door-bell rang. Opening the door herself, she was amazed to find her expected guests. Their eyes were turned to the window instead of upon their work. It must be that they too are looking for guests.

Opening the door herself, she was amazed to find her expected guests. Their eyes were turned to the window instead of upon their work. It must be that they too are looking for guests.
At last the old stage-coach came lumbering up from the station to deposit its load at Mr. Kent's gate. A lady and gentleman alighted with two children, little two-year-old Charley, and demure Miss May, with the consciousness of her five years in every look and step.
Aunt Mary rushed eagerly down the walk to meet them, while the dear old grandma followed more slowly, her soft gray eyes beaming a lovely welcome upon them all.
In the meantime Mrs. Perry had left her post of observation by the window to give one more glance over the house. She had scarcely resumed her seat when the door-bell rang. SATURDAY, DEC. 9, 1882.

Deep Affliction.

The sudden death of Mr. Allison S. Dodge, after a short but severe illness of only one week, has cast a gloom over a happy household and a circle of friends and neighbors. Mr. Dodge was a member of Paul Revere Post, G. A. R., and the members of the Post were unremitting in their care and attention to him while he lived and after his demise took the entire charge of affairs. The funeral took place on Wednesday from the chapel of the Congregational Church and was largely attended. The Grand Army Boys escorted the body to the church and at the conclusion of the services a line was formed and a delegation of Good Templars, of which Mr. Dodge was a member, and a large number of men from the Wollaston Iron Foundry joined Paul Revere Post and marched to the Mount Wollaston Cemetery, where the burial services of the Post were performed by Rev. S. K. Kellie and also the rites of the Good Templars.

Mr. Dodge was a highly respected citizen. He leaves a wife and three children. Mrs. Dodge was taken with the same disease, pneumonia, on Saturday, and has been very seriously sick, but we were pleased to learn that she was more comfortable on Thursday.

THE PEOPLE'S COURSE. Of the entertainment last Saturday evening it is easy to write extravagantly. The music, in point of merit, was the best yet offered in the course, while the Lotus Club sang, one might have been reminded, and persistently enough, of the opening lines of the choral song in Tennyson's Lotus-eaters:

"There is sweet music here that softer falls Than petals from blown flowers on the grass—
The song of the club and the reading of Miss Edridge kept the great audience all the time at a pitch of enthusiasm. This evening, Gen. John L. Swift will deliver his lecture which has the suggestive title "Job, J. I."—the Trials of Modern Man. The general is so well known as to need no introduction. It is enough to say that his lectures are both witty and wise. For twenty minutes or so before the lecture, Master Allen R. Hunter of Boston, who has musical talents will play on the piano.

ST. ANDREW'S EVE. The third annual celebration of St. Andrew's eve, under the auspices of St. Andrew's No. 5, of Quincy, was held Nov. 26th, in the old library building, on Hancock street. The concert was opened with a short, appropriate address by the Christian, then followed a varied selection of quartettes, duets and solos, which were accompanied with good effect by the organist, Miss Carter, from Quincy Point. A recitation, "The Death of the Day," was given with fine feeling by Miss Lizzie Mason, of West Quincy. The concert ended with a performance on the horizontal bar, by Mr. Fraser.

Dancing then commenced, and was kept up till two o'clock, A. M., the music being supplied by Mr. Grant's band. Everything was orderly, and enjoyed themselves thoroughly, and though the night was somewhat stormy the hall was crowded.

TIGER BALL. The Tiger ball, which was held in the Town Hall, Thanksgiving night, was a grand success, upwards of 150 couples attending, as usual at the balls given by this company, everything passed off quietly, and joy was supreme. Music was furnished by the Higgins' band, whose delightful strains enlivened the occasion, and the lovers of the terpsichorean art busy until late in the morning.

The past balls given by this company have been creditable, and this was no exception, which speaks well for the Committee of Arrangements, who since the company was disbanded, have worked hard to make this, perhaps their last, a grand success, which undoubtedly it was, both socially and financially.

ELECTION OF OFFICERS. At a meeting of the members of Paul Revere Post, held at their hall on Thursday evening, the following officers were chosen for the ensuing year:

Commander, I. M. Holt.

S. V. C. S. B. Turner.

J. F. C. E. P. Small.

Sergeant, Geo. A. O'Leary.

Chaplain, Henry Chubbuck.

Quarter Master, W. P. Martin.

Office of the Day, J. M. Cleverly.

Office of the Guard, O. M. Whittier.

Delegates to Dep't Convention, W. B. Munroe.

Delegates to Dep't Convention, Jos. H. Whitcher.

Delegates to Norfolk County Convention, J. M. Cleverly.

YOUR ATTENTION PLEASE. Paul Revere Post of this town, will hold a grand fair at the Town Hall, commencing Monday, Dec. 18, and continuing five evenings. The attractions will be varied and popular, and our citizens are invited to patronize the fair liberally, and thus contribute to the charity fund of the Post. As the object of this fair is an excellent one, it being for a fund to enable them to aid their sick and needy ones, it is hoped that they will have crowded houses each evening. Those purchasing season tickets stand a chance to secure a prize; some of these prizes are very valuable. Pleasing entertainments will be given, and everything will be conducted in a satisfactory manner.

TEMPERANCE UNION. The Young People's Temperance Union will hold their next meeting at the Congregational Chapel, on Thursday evening at 7 o'clock. The Rev. Mr. Norton will conduct the teaching exercise, making the entire audience his class; subject: "Alcohol, a deceiver." An opportunity will be given to ask or answer questions. Mr. A. L. Hitchcock, of Boston, will give familiar talk, using the blackboard to illustrate. Good music is also provided. While those meetings are especially for the young in our community, all are invited.

A PROPER ASSOCIATION. The Massachusetts Board of Association, of Boston, in which so many of our people have been insured by Mr. A. G. Olney, well deserves its reputation for square dealing and promptness. Last Saturday the proof papers on the death of Mr. Geo. O. Morrill, of Haverhill, reached the office at nine o'clock, and in three hours they were approved by the three officers required, and a check was drawn for payment in full.

We understand the loss of Mr. Allison S. Dodge, of this town, will be as promptly paid.

Help the G. A. R. boys.

Brief Locals.

Are you going to the fair?
The Robertson House invites citizens to "come and get fat."

A good Protestant cook wanted in a small family.

Have you bought your season ticket to the G. A. R. fair?

Our merchants are preparing extensively for the holidays.

Are you going to draw the piano at the G. A. R. fair?

The Granite engine company will hold their annual ball Feb. 24.

The weather was extremely cold on Monday last, the mercury being but little above zero most of the day.

Mr. Dennis Callahan had his hand badly damaged one day last week by the quarry of Churchill & Hitchcock.

The advertisement of house lots at auction, Auctioneer Lombard offers good bargains quite in the centre of the town.

Thanksgiving day the sleighing was quite good in this vicinity, and those having trotters improved the opportunity to exercise them a little.

A driving snow storm commenced on Thursday afternoon, and continued with unabated fury for two or more hours.

Services will be held at the Quincy Home on Thursday about three o'clock. It is expected that Rev. Mr. Norton will officiate.

The afternoons are now the shortest, next week they will come to lengthen.

Reynolds Post of Col. B. Weymouth, under command of Col. S. L. Lovell, will be at the opening exercises of the G. A. R. fair.

The regular monthly session of Probate Court will be held in Quincy, on Wednesday next at the School Committee's room, at 9 o'clock, A. M.

Miss Outhouse, who was heard in Quincy, in the People's Course for ten cents, was heard this week in the Park street Church, Boston, for fifty cents.

The Old Colony Memorial, which is a movement being made in Masonic circles to effect the transfer of the South Street Commandery headquarters from East Weymouth to Quincy.

A new division of the Ancient Order of Hibernians has been organized at Cahill's Hall on Water street, where they will hold meetings on the second Wednesday of each month.

The inmates at the Quincy Home were treated to an excellent dinner Thanksgiving day, most turkey and all the fixings. Mr. O'Leary and wife look well to the interests of those under their charge.

Last Saturday evening nine hundred and eighty-nine persons got themselves into the Town Hall. Had it not been so soon after Thanksgiving one thousand would have been packed there.

Owing to a press on our advertising columns, several favors received from our regular correspondents have been unavoidably crowded out. They please accept our thanks for the same.

Friends of Post 88, G. A. R., desirous of contributing articles for the fair, are requested to leave them with Mr. John A. Pratt, Miss Emily Foster, Mrs. W. W. Penman, Mrs. W. P. Martin, or at the Town Hall on Monday Dec. 18.

The South Shore Herald says that "the recent improvements made by Mr. George H. Hitchcock of Quincy, on the late Thomas Baker homestead, at Marshfield, adds much to the beauty of South River street."

It is our sad duty to announce the death of Mrs. Richard G. Elliott, who died at her residence, on Hancock street, yesterday, after a long and painful illness. She was a highly-respected woman, and will be much missed by a large circle of relatives and friends.

An alarm of fire was given on Sunday evening from Box 37, occasioned by a slight fire in shoe manufactory of Mr. Franklin Curtis, on Franklin street. The fire was extinguished with a few buckets of water, and the damage was small.

To prevent the crush at the entrance to Town Hall this Saturday evening, both sides of the front entrance will be thrown wide open. All possible comfort will be afforded those who attend. Persons who have not purchased tickets at the stores will find them at the Selectmen's rooms.

GAMBLING. Gambling in this State under a recent law is no longer the thing to be conducted with impunity. A jury in the Superior Court on Monday returned a verdict of \$4080 for Willie D. Cole, the plaintiff in a suit which was brought to recover some \$2500 lost by the plaintiff's brother, Henry G. Cole, during the fall and winter of 1880-81. By the statute three times the amount lost can be recovered.

ANNIVERSARY. A few of the relatives and friends of Mr. and Mrs. Wm. T. Curtis, met at their residence on Union street, on the evening of Nov. 27th, to celebrate in a social and pleasant manner, the twentieth anniversary of the marriage of this worthy couple. The affair was very enjoyable, and it is the wish of their large circle of friends that they may live to celebrate their diamond anniversary.

COUNTY COMMISSIONERS. The ex-aminores of Norfolk County counted on Wednesday the votes for County Commissioners, and issued commissions to John Q. A. Field, of Quincy, to fill the vacancy caused by the resignation of Hon. James Humphrey, and to Jabez Talbot, who was re-elected.

For the Patriot.

Quincy Point Items.

We hear that Mr. Tisdale, who recently purchased Mr. Robinson's stock and route, is negotiating with Mr. J. A. Lapham, for the purchase of his fixtures in the Point traffic; if successful, we understand the fare is to be raised fifty per cent.

The alarm of Box 35, last week, did not strike correctly on the gong, consequently the Vulture did not respond. The lever in the box was not pulled properly; neither was the recall struck here.

The alarm from Box 37 came in right, but only two blows were struck for the recall.

The man who has charge of the steam whistle at Wollaston attends to business in first-class shape; the alarms of fire given by him have been correct and plainly heard here.

Mr. Charles Sherburne and family have moved to Pittsfield, Maine, to spend the winter.

Mr. John S. Freeman and family went to New York to pass Thanksgiving Day.

The Quincy Point Temperance Association held a meeting Wednesday evening. The by-laws were altered so that in future no boys will be allowed to attend the meetings unless accompanied by their parents. This action was made necessary by a disorder which has been prevalent in times past. There will be another meeting next Wednesday evening.

The Vulture Engine Company held its regular monthly meeting Monday evening. There was well attended considering the weather. The profits were for the benefit of the church, and were quite satisfactory. The singing by the church choir and by Miss White was excellent.

Nineteen vessels passed through the Point vessel bridge during the month of November.

We call the attention of the Road Commissioners to a defect in the sidewalk on South street in front of the stable of D. H. Bills.

For some time past our street lamps have not been lighted and many of the residents are dissatisfied. We are aware that the town voted to virtually leave the lighting of the streets to the judgment of the Road Commissioners, but why they should interpret that vote to mean that the Centre should not be lighted and the Point should not, we cannot quite comprehend. For we surely pay our proportion of the whole expense and are justly entitled to our proportion of its benefits, yet of late we have been entirely neglected. If it is decided to have no lighting of the streets, why of course we shall abide by that decision, but just as long as any other parts of the town are lighted, we claim the same privilege for this section.

The parish committee of the Christian Union Church is arranging for a course of four lectures to be given in the church during December and January.

The Baptist Society held a social at the residence of Mr. Samuel Hayden Thursday evening.

We understand an effort is to be made to change the fire alarm gong from the church to the engine house. This should not be done. The box, gong and bell are now on one building, and all three are intimately connected in practical use. When the gong strikes it is natural for any one who hears it to get as near to it as possible in order to count correctly and if it strikes any box to which the Vulture should go, the person may immediately ring the bell. Again, if it should be necessary to give an alarm from Box 72, the person giving it, is directly under the gong and can tell whether or not it has struck the proper number. There has been no time since it was located that it has not been heard and if it struck correctly for any district to which the Point engine was expected to go, some one was ready to ring the church bell.

Much credit is due to our worthy watchman at the machine shop, Mr. A. J. Preston, for the faithful manner in which he gives the fire alarms. The whistle is the best part of the system now in use, but cannot the engineers make some arrangement, by which the recall can be sounded. As it now is, the two clerks, who are in the machine shop, can hear no recall if sounded, and are obliged to go until an engineer is found to order them back. Many unnecessary runs and much expense might be saved; so say many of the members of the department.

Wollaston is well represented at the lectures now in course at the Town Hall, but it is in good taste, especially among the younger portion of the audience, to insist by stamping and whistling, upon a recall of each part of the performance; or do they think they are not receiving their money's worth. Also, cannot the pianist have a stool to sit upon instead of the "old arm chair?" The audience certainly deserve the thanks of the people for the selections and quality of each of the entertainments thus far.

The building prospects for the spring are very encouraging. Quite a number of houses are to be started as soon as the ground opens. The great want is medium sized dwellings to rent. They are constantly in demand, and capitalists would find it a good investment for their money, to furnish such buildings.

It is currently reported that the Gas Company are to extend their pipes through this region, early in the Spring, and if so, they will meet with much encouragement, as it is something much needed here, and even at present prices, they will find many takers.

P. R. O.

ANNIVERSARY. A few of the relatives and friends of Mr. and Mrs. Wm. T. Curtis, met at their residence on Union street, on the evening of Nov. 27th, to celebrate in a social and pleasant manner, the twentieth anniversary of the marriage of this worthy couple. The affair was very enjoyable, and it is the wish of their large circle of friends that they may live to celebrate their diamond anniversary.

COUNTY COMMISSIONERS. The ex-aminores of Norfolk County counted on Wednesday the votes for County Commissioners, and issued commissions to John Q. A. Field, of Quincy, to fill the vacancy caused by the resignation of Hon. James Humphrey, and to Jabez Talbot, who was re-elected.

Washington Letter.

WASHINGTON, D. C., Dec. 4th.

Here we are again, looking down from the unclouded heights of the Reporters' Gallery upon the Congress of the United States. Below are the chosen representatives of fifty millions of the most progressive people in the world. The House has not been called to order, and for this reason, perhaps, has great disorder. Maine is shaking hands with Texas; Western heartiness and Southern warmth are actually patting each other on the back, from Oregon to Florida; while Massachusetts and South Carolina have half lost their individuality in this common Hall of States. We see no political sections of bi-sections yet; no shades of blue and gray. All are moving, writhing, talking, laughing and greeting each other with the abandon of boys returned to the campus of their alma mater after a long separation. And what an eventful separation it has been! But see the hand on the dial points to eleven. The sharp rat-tat-tat of the gavel is heard. To your seats, legislators! Divide yourselves antagonistically, yet recognizably, politically: North, South, East, West; tariff and anti-tariff; Republican and Democrat; while the pale chaplain intones a blessing on your common country, the United States.

Amey! Now, gentlemen, perform your promises made on the hustings and proclaimed in platforms, to say nothing of your unpublished promises of place and preferment, that you have made to the constituents, and, above all, be virtuous and the country will be happy.

It is too early to foretell the course of legislation. Influential members and senators do not hesitate to express their views, but the views of legislators do not always result in accomplished legislation. There is a wide consensus of opinion among the Republicans that there should be an almost total abolition of internal revenue duties. It is believed that a majority of Congress will oppose any change in the whiskey, beer, and tobacco taxes, which make the bulk of the internal revenue assessment. A large element of the Republican side of the House and Senate, whether tariff men or free traders, are opposed to any reduction whatever on whiskey or tobacco, though they may consent to a slight reduction on the latter.

It is believed that no comprehensive review of the tariff schedules will be made, but it is possible that the tariff may be removed from a dozen or two articles on which there is universal agreement.

There will doubtless be much discussion of the civil service reform question, and it is probable that a bill fixing the tenure of office during good behavior, a forsworn term of years will be passed.

The second trial of the star-roster cases is set for today in the Criminal Court. By reason of the recent developments public interest in these cases has been much intensified. The selection of the new jury will be watched with the most vigilant scrutiny, both by the government counsel and the counsel for the defense. Public sentiment is strong that a conviction is sure to follow this second trial, and the counsel for the government expect the utmost confidence that such will be the result. The government counsel aver that they have additional and exceedingly important testimony of a most convincing character, and that the defendants are very frequently seen in public places, but they look much subdued and have little to say.

ADAMS.

For the Patriot.

West Quincy Items.

We are now beginning to realize the effects of the stone crusher, recently purchased by the town, by having a new road built between the railroad depot and O. T. Rogers Granite Company's works.

Since the Road Commissioners have shut off many of the street lamps, our streets look very dismal these dark nights, but we hope for a change next March for the better.

The Granite Engine Company responded promptly to the alarm of fire on Sunday evening.

There is an emblem of mourning on the Forester Hall, occasioned by the recent death of John Joyce, who was killed at the quarry of O. T. Rogers & Co.

Mr. Bernard Holt is having a new pump built at Messrs. Tirrell & Sons.

Mr. William N. Eaton has begun to get ready for his ice crop, having overflooded his large meadow.

Messrs. Vogel & Sons have just built a nice shed, which will be comfortable for the granite cutters this winter.

That part of the town known as Fisher's Swamp is rapidly being inhabited.

SENTENCED. Albert E. Gore who was tried and convicted of bigamy in New York city recently, was sentenced to five years' imprisonment for the crime.

The card of the Home Savings Bank, Boston, is worthy the attention of all prudent people.

Summary of News.

Canned meat weighing not over four pounds can be sent through the mails as fourth-class matter.

A Baltimore club pays a negro cook \$2500 a year for cooking turkeys.

Congressman Hazeltine, of Missouri, is the owner of an enormous orchard from which he this year has shipped 13,000 barrels of apples.

At Chicago, potatoes are selling for sixty to sixty-five cents per bushel.

Steamer Greece sailed from New York on Wednesday last with 100 premium steers from the fat stock show at Chicago, which are expected to arrive in London for the Christmas market.

Marriage ceremonies were lively in Dedham, Thanksgiving eve, no less than six having been performed.

A bill has been introduced in the Parliament of Australia making it a penal offence for boys under eighteen years of age to smoke in a public place.

About seven-tenths of the mail which is sent from Washington goes free or in franked envelopes. The office ranks second in the United States as to the weight of mails despatched.

Three million dollars have already been spent on the Panama canal scheme, yet absolutely nothing has been done in the way of cutting the canal.

The Treasury Department reports that counterfeiters are less numerous this year than last.

For the Patriot.

The Fire Department.

After a calm reflection of the workings of our Fire Department at the fire at Mr. Webb's greenhouse it is not evident that our fire alarm is a failure as regards its "working" qualities.

Those who are fortunate enough to hear the alarm at night, say it strikes the ear correctly, but that all that can be said in its favor. It should be changed at once to a better sounding bell; one that isn't cracked, and also placed on some bells in the centre and other parts of the town, especially on the bell at Quincy Point, or the Wollaston whistle must be moved nearer the centre.

Now as regards our steamer, is it properly managed?

I am forced to think it is not. We have 1000 feet of hose comparatively new, but at two fires where the steamer has played, the hose has burst before the engine could get into action. On both occasions the engineer, with 60 to 80 pounds of steam pressure, has opened the throttle valve when first commencing to play, and the hose has burst, and then went to stand a pressure so quickly generated.

Again, why should the steamer play 300 feet of hose when plenty of water was within 300 feet? The first water to the nearest water hydrant was within 50 feet from the steamer. Was it not a dangerous experiment, as all the hose on hand barely reached the building. Are not the engineers placing too much dependence on the steamer for fires in the Centre and South District? With the discarding of the services of the steam pump, and the disbanding of the Tiger Company, it surely looks that way.

The steam pump with plenty of hose and men to manage the pipe, is better than four or five steamers. But at this fire with a hydrant within 150 feet of the building, and having up steam and playing before the steamer, not a line of hose was run from the hydrant.

After working an hour the steam pump must be contented with putting into the reservoir the same amount of water the steamer played into the street and in the building. Would it not have been better for the pump to put the water on the fire and thus save this double passing of water, playing tub and tub, as it were, which system went out of vogue many years ago.

Hopeful to hear of the better before a large fire takes place, and that the steam pump will not be used simply to fill reservoirs. I remain a

A HAPPY OFFICER.

The Boston Herald says:—Policeman Faxon, of Quincy, who has thirty-three appealed liquor cases to be tried the coming term of the superior court at Dedham, is pleased to learn that Judge Aldrich is to preside. His charge, although very upright in all his judgments and rulings, has no more sympathy with rum-sellers than Mr. Faxon."

The Norfolk County Gazette says:—The estate of Jesse Banton, of Milton, Albert K. Teale, executor, has been attached in the sum of \$10,000 in an action of contract by the O. T. Rogers Granite Company of Quincy. The case is returnable at the December term of court in the County of Norfolk."

Poetry.

A Sum in Arithmetic.

There came into our school one day
A white haired man. With pleasant smile,
He said he would like to recite awhile.

Twice time to have arithmetic,
And twice to have the teacher read the sum;
Put up your books and take your seats
And do the sum which will be read.

Our booky went on, in our class came out,
And twice the teacher read the sum;
We tried and tried and tried again,
But then he didn't make the answer come.

With kindness twinkling in his eye—
"Who gets the answer first shall have
A shilling for a prize."

Then Tommy Dole resolved to cheat,
And, slyly taking out his book,
When he supposed he was not seen,
A hasty glance under the desk.

At once the answer Tommy Dole,
And you 've got it, sir," he cried;
The teacher then took the sum, the sum,
And told him he had won the prize.

But that old maid had seen it too,
Those twinkling eyes had watched the trick.
"Well done Tommy," she said, "you seem
To understand arithmetic.

But now, before I give the prize,
I'll let you try a harder case,
And show whether you are so good,
If you can tell how this is done."

And then, with kindliest smile and look,
He said, "What shall I give you?"
"What shall it profit you, my lad,
To gain the money and lose your soul?"

Then Tommy Dole hung down his head,
And the answer he never said.
And all the scholars wondered why
He would not win the silver prize.

Racing a Prairie Fire.

We were a mighty merry party as we
bumbled into the train at Omaha to continue
our journey. The angust of the summer
in the days already spent on the road from
New York each one had time to make
his neighbor's acquaintance, and knew
as much about his affairs as if he had
known him for years.

There was a young lord and his tutor,
who were going to the Yosemite Valley—
and his lordship "hoped to have
some Californian lions"—a strong-
minded female, several artists, and the
usual mixture of miners, government
agents, commercial travellers and
several others.

In the time of which I am writing
one going to San Francisco by train was
the hero of a thousand possible adventures.
If in winter, the train might be
snowed up, or disappear in a drift, two
hundred miles from any station, on the
black prairie.

Summer meant had its own peculiar
dangers. We might be stopped and
overtaken by countless herds of buffaloes,
or the Indians might take it into
their heads to tear up the rails, or the
train might be brought to a standstill
by the same or rougher means, and
boarded by a band of "road agents,"
as the western mail robbers are termed
to.

Besides this, towards the end of a hot,
dry summer, there was the chance of a
prairie fire. It is about this last that I
wish to go in writing presently.

The American railroad "car" pre-
sents a wonderful contrast to the Eng-
lish carriage. The passenger car is
stuffed to its compartments, and is
free to walk up and down the long aisles
from one end of the train to the other,
watching the various groups at little
tables, which let down from the sides.

If you tire of this you open the door
at the end of the car and step across the
platform from one car to the other, tak-
ing care not to be pitched off by the
rocking motion of the train. One soon
gets accustomed to the rails, and there is
no danger of falling catastrophes. No one
is in the drawing-room specially de-
voted to the ladies, where are most
luxurious *tit e tites* and lounges, fitted
with cunning springs to counteract the
motion.

It is a lovely day, and one wants the
fresh air, so one carelessly strolls
through the car where there are a lot of
noisy mine prospectors and scouts, and
through the restaurant car, leaving
word to the dusky waiter to bring a
nearly frozen cold-mash to the prome-
nade car which is in the rear.

Here one may walk about and enjoy
the sunshine and scenery without fear
of falling overboard, for stout iron rails
run all around, which, being nervously
clutched at from time to time, save
many a shaky passenger from coming
to grief. Away on either side, as far as
the eye can reach, the prairie rolls in
billows like the ocean—here a yellowish
green, there a brownish with patches of
red. Until it meets the blue sky in the
purple of some far-off dreomy bluff.

Now a herd of antelope start off, and
go bounding over the tall, rank grass,
followed by the whip-like report of the
revolver, for the gentlemen on the rear
platform carry their "shooting-irons"
in a rear pocket of their
trousers, and are always ready for a
snap shot at any animal which comes
within range. What would apparently
seem useless slaughter, it must be said
that, though these gentlemen consume
a vast quantity of cartridges, they very
seldom hit anything, and, as was said
of the old Brown Bess, it generally
costs any animal's weight in lead to kill
him.

Here pass the motionless and
palegreen figure of a ragged Pinte,
drawn up to witness the passage of the
"fire mustang" which has brought him
such terrible woe! He looks the very
type of a worn-out, useless race, as he
sits on his wiry little legs with his toes
spread on the ground. If he dared, he
perhaps, he would like above all things
to send a bullet from his rifle after
the smoking, chattering pale faces;
but he knows very well that the reply
from the deadly whites will be to
shoot him for simply howling, and re-
mains motionless in all his dirty dig-
nity until we are out of sight.

Now the engine gives several sharp
accrens and the train slows up. Are

we hearing a station? No. See—over
black cloud breaking across the
track ahead and extending as far as the
eye can see in one rushing, mighty,
irresistible torrent. The herd of buffa-
lo on the stampede, and as they go
thundering along the sound of their
hoofs is like the booming of artillery.

Until they pass there is no going
back, no, for, if the engine should
might crash into the herd and pinch
dozen of them off the line with the cow-
catcher, it would soon be brought to a
standstill by sheer dead weight.

Fortunately it is not a big herd—they
are being smaller every year, thanks
to wanton slaughter—and so we are
presently on our way again, the irre-
pressible ones as usual emptying their
revolvers uselessly at the flying herd.

Now they are no longer talking and
anxious consultation with the guard,
for some of the old hands declare that
the prairie is on fire—they can smell it!

"Yes, gentlemen," the guard says
in answer to several eager questions
"it is tearing along like a typhoon, and
may be it will cross the track before
we get through."

We are racing along merrily now
and all the northern sky has become
one immense pyrotechnic display, and
a hissing, crackling, roaring, down the
wind with the columns of smoke.

It is getting insufferably warm and
stifling. We leave the promenade car
and betake ourselves to the shelter and
comparative security of the interior.

The windows are all pulled up, for
fear of the sparks, and the portable fire-
extinguishers got ready.

Daylight has gone now, but the whole
north is lighted up with a blood red
glare, flashing into sheets of passionate
violet. The angles of the roof, the
against the glass or rattle upon the
roof. The atmosphere of the car grows
intensely hot, and becomes thick and
foggy. Here-and-there little gray
clouds of smoke can be seen swirling
up, and the angles of the roof, the
interstices of the doors and windows.

Outside, the roar of flames, the cries
of wild animals; inside, the sobbing of
frightened women and the choking
cough of some weak-chested individual.

The strong-minded woman has, first
of all, insisted that we should go back,
and then she has insisted that we should
near the empty stove, but no one pays
any attention to her.

The train is dashing along at a fur-
ious rate, rocking from side to side like
a mad thing, and the conductor declares
that the paint-work has caught fire.

The glass in the windows has grown
hot to the touch! We are rushing
towards a wall of flame—like a shrieking
and coughing of the women—like a
coming heart-rending, while the men
stand about in sullen groups, peering
into the yellow, lurid light.

Suddenly we are plunged into pro-
found darkness. It gradually clears
away, but we are terrified afresh by the
grinding and jolting of the train. Have
we run off the rails, and are we to
be crushed to smithereens in the middle
of this awful scene?

The suspense is great, but only lasts
for a minute. The train comes to an
alrupt halt, and the door is opened
with a bang, while the voice of the con-
ductor is heard, saying: "Jump out
lively, lads! She's on fire outside!
Be quick along your blankets and rugs!"

We are about to second the invitation,
for this, and presently are standing outside
in a white fog, beating at the light
flames which run over the cars like
will-o'-the-wisps, for the paint-work is
on fire, as he predicted, and is blistered,
blackened and scorched. In a few more
minutes our blankets would have been
of no avail. As it is, our handsome
train is a sadly disfigured object.

We open the windows to let in the
fresh air and bring out the fainting wo-
men, and about the same time, toward
the sky is one black and arid waste
marked here-and-there by the half-
burnt carcass of some unfortunate ani-
mal whose flight was ineffectual. South-
ward we see an ever-rolling black cloud,
broken here-and-there by a spark or
glare of flame; but the luridness and
dangers are concealed now from our view
by this black pall, which was the pillar
of light from the Egyptians.

We think we have escaped a terrible
danger, and about the same time the
guard only shakes his head good-humoredly, and makes
naught of it. "The fire must have had
a frontage of twenty miles," he says,
"taking it from first to last, for we
were thirty minutes getting clear of it,"
and he is certain the speed was worked
up to over fifty miles an hour.

We gather round the conductor
while he tells us a wonderful story of
how his train was stopped once by road
agents, and how he saved the gold. As
an example of the desperate daring of
these ruffians, I may give it here.

"It is about ten years ago gentlemen,"
he said, "that happened to me. I was
driving a fifty mile west of Laramie.
I was in charge of the safe of Wells,
Fargo & Company. It contained about
twenty-five thousand dollars in gold,
and I was the only one who knew the
combination of the lock. Suddenly
the train broke up with a jerk, and
someone shouted out, 'Road-agents!'
In a moment it flashed across my
mind that I had an ammunition out of
me or kill me. How could I pre-
vent this was the first thought that
flashed through my head. I was stand-
ing in the mail room at the time, and
almost as the thought entered my
mind I was on the ground. I sprang
for it, clapped a piece of soap in my
mouth, and lung myself on the floor.
"When they burst open the door
they found me kicking up my heels in
strong convulsions, with four of them
on my back. By the time they had
got through the rest of the train
and robbed the passengers of their
money and weapons. Four of them
entered the mail room, leaving two
others to overawe the passengers.

CHRISTMAS.

The merry Christmas time approaches. A period of merriment and a season of joy. Friends and family greet him with the happy wish: "Many happy returns of the season." Parents greet the children who, perhaps, for a long year have been absent from the paternal roof. Brother and sister exchange tokens of affection, and join in merriment and gladness in the old home. Little ones count the favors which Santa Claus has brought them, and their little innocent hearts jump with joy and pleasure, for, indeed, they are happy.

But while gaiety and pleasure is the prevailing rule, alas, there are many to whom Christmas brings no pleasures, no festivities, no rejoicings. The time to them, indeed, is rendered more sad and gloomy by reason of the joy and brightness surrounding. It is the dark lining of the silver cloud—it is the lowering background of the sunny picture. God help the poor! Many of them—not all, thank heaven—will have nothing to brighten their hearts; their homes will be none the less dreary because others are not happy; their burdens and toils, and crosses and sufferings will be none the less weighty, tiresome, afflictive or poignant because the happy day of Christmas is at hand.

While we are bestowing our gifts and remembrances upon our own households, and upon the friends we love, let us also look beyond to discover those in our midst upon whose eyes fall no sounds of "merry Christmas," and whose shallow purses contain no means to gladden the hearts of their children.

With those "whose lines have fallen in pleasant places," let this be a day of kind feeling and charitable action, and feel thereby how much more blessed it is to give than to receive.

These festive work a positive good when they are allowed to speak to and touch the hearts. They make us liberal, kind and indulgent, and they sanctify to us, they make us more and more like our Master "who went about doing good."

Let us therefore keep it more sacredly than ever. It comes but once a year, and so let us improve every one of its suggestions. That all our friends and readers may find in the dear old festival the utmost that their hearts desire is the sincere wish of the PATRIOT.

The Water Question.

Some of our prominent citizens have taken the first step towards furnishing the inhabitants of Quincy with water. They have given notice that they intend to ask the next General Court for leave to form a corporation, to be known as the Quincy Water Company, for the purpose of supplying the inhabitants.

The same subject was agitated a few years ago, and at that time it was urged that the town ought to take the steps necessary towards supplying the citizens. But many of the voters, especially those living away from the center of the town, objected. The reason they gave was that it would require a heavy expenditure of money, and consequently taxes would be higher. They said, let a company introduce water into our town, and then only those who wanted it would be obliged to bear the burden.

There was considerable truth in their argument, and consequently a majority voted against the town taking any steps to supply itself with this much needed article.

It is proposed now to organize a stock company, which shall own and control the water supply, thereby relieving the town of the expense attending the introduction of water and preventing those who, from having a good well or other cause, from being obliged to share in the cost of making it possible for those who did not need the water to obtain it.

Although it is better usually for the town or city to have control of these undertakings, as they are generally the largest patrons themselves, still when a town is so cut up or divided into districts, as not to be able to act together, that a stock company should set the ball in motion; and finally the town will be glad to take it off their hands.

There will be a good demand, we think, in Quincy, for water, and those gentlemen who invest their money in the way of dividends. As is well known, the holders of stock in the Quincy Water Works are receiving good interest on the money invested in that enterprise.

People's Course.

No grander theme can be selected by any lecturer than that of the people's course. It has been chosen, at least in part, by our fellow townsman, Mr. F. McPherson, for his lecture in the People's Course next Wednesday evening. He will illustrate it profusely by the aid of the stereopticon; many of his pictures will be so taken as to nature and will make his lecture both interesting and instructive. By the advertisement in another column it would seem that he will talk especially about the people, and that he will consider the latest things known about them. Dr. Hill, late President of Harvard University, speaks in very high terms of Mr. McPherson's lectures.

The management of the lecture course thought that by the efforts of officers and the onlookers of the patrons themselves, all crowding, when the doors are first opened, would be prevented. They confess they have failed—not because the officers did not do their duty, but because many were desirous of whom they could not see things. John from the quarries was not so much to blame as Adolphus from the store and counting-room. Now all who come before the doors are opened are to be required to form in line. The first who come will have the first place.

CONVICTED AND SENTENCED. Mr. Patrick Brown, whose place of business is on Quincy Avenue, in this town, was tried before Judge Abbot at the Superior Criminal Court at Dedham, on Monday on the charge of perjury. He was convicted of the crime and sentenced to three years in the House of Correction, one day to be in solitary confinement.

SUGAR. The Boston Journal says: "If people are really in earnest to have sugar, they had better get it from the cane. It is being done in many ways. There is no lack of sugar, but it is being hoarded up by speculators, and is being sold at a high price."

THE SUFFRAGE. The vote for Governor in North Carolina was very close, viz: 121,000 for Blaine, 117,000 for Tilden.

Brief Locals.

A merry Christmas to all.

The public schools closed yesterday for the holiday vacation.

Our advertising patrons have had the best of us the past few weeks.

Camp Lovell, at the G. A. R. Fair, was very attractive and pleasing, and drew large crowds.

The year 1882 is fast drawing to a close, and in a few days our ledger will be a record of 1883.

Rev. Mr. Sawyer will preach at the Quincy Home-to-morrow about 3:12 o'clock, P. M.

Mr. Ramsdell advertises that he will receive another cargo of hay in about two weeks.

Christ Church has been beautifully trimmed and never looked handsomer than at the present time.

Dr. William Everett was one of the speakers at the celebration of the Pilgrims' day at Plymouth, on Friday the 22d inst.

The annual School Ball, under the auspices of Clan McGregor, takes place at the Town Hall on Friday evening next.

There is great complaint of the scarcity of tenements near the center of the town, suitable for persons of moderate means.

It will be seen by referring to our advertising columns that Jos. W. Lombard will sell a large lot of excellent wood on Tuesday, Jan. 24.

Mrs. McPhee gives notice that she is prepared to cut and make nice shirts for gentlemen. Also, ladies' wear. Read notice in another column.

E. F. E. Thayer sells, on Thursday next, ten acres of standing wood, on West Street, Braintree; also the land, after the wood is sold.

Joseph W. Lombard will sell twenty-eight valuable house lots at auction on Saturday next. They are quite centrally situated, and now is the time to secure bargain.

Messrs. John D. Rollins and Elijah S. Brown have been drawn to serve as jurors for the civil session of the December term of the Superior Court for Norfolk County.

The First Church hold their Christmas festival at Faxon Hall this evening. From a glance at the programme we should judge that a very enjoyable time will be had.

The Universalist Society will have a jolly Christmas at Faxon Hall on Monday. The afternoon will be devoted entirely to the pleasure of the children.

All persons who have gifts of any kind to give to the poor of Quincy, in this Christmas time, are invited to leave them with the Selectmen, who will see that they are properly distributed.

Mr. T. A. Whitcher & Co. of this town, presented to Mr. Daniel Keilher one hundred dollars as a Christmas present. We understand Mr. Keilher has been in the employ of the firm for the last twenty-seven years.

Gov. Long, Hon. B. S. Lovell and Deputy Commander George H. Patch and staff, were present at the opening of the Grand Army Fair, on Monday evening, and were quite an attraction.

A good guest. Napoleon Nadeau, a clerk at Durgin's apothecary store, was presented with \$5.00 at the St. Mary's Catholic fair, at West Quincy, on Tuesday evening, having made the most successful sale on a bottle of what he was selling.

The number of bottles was 1520, and he guessed 1515.

Those of our citizens who feel charitably disposed, are invited to send articles of food this Saturday afternoon, to the Selectmen's room, where a person will be found to take charge and distribute the same among the deserving poor of our town, that they may enjoy a good Christmas.

A nice horse belonging to Messrs. Whitney & Nash was badly injured on Monday last. He got loose and attempted to leap over the iron fence in front of Mr. Whitney's residence, and one of the pieces was forced into his side, between the ribs. The animal bled profusely, but Dr. Jones was called who sewed up the wound, and we learn that he is getting along nicely.

Mr. Charles T. Rand will sell, on Wednesday next, the valuable home-stead of the late Noah Cummings. It is one of the most desirable estates in that vicinity. Beside the homestead, other valuable real estate will be sold, and on Thursday all the personal property. For particulars see advertisement.

In the Superior Court at Dedham, Thursday, Thomas Swinton of Quincy was fined \$20 and costs for keeping a liquor nuisance. John Trainor of Quincy pleaded guilty to violating the screen law. Ellen Welch of Quincy was convicted of keeping a liquor nuisance. Jeremiah Shields of Randolph pleaded guilty to an assault upon his wife, and was sentenced to three months in the House of Correction.

STEEPLE OCT. Mr. Thomas Costello of Quincy was arraigned before the Superior Criminal Court at Dedham on Wednesday, for illegally selling liquor and pleaded guilty to the charge. While Judge Aldrich was considering what sentence to impose Costello stepped out of the court room and disappeared.

A BAD FALL. Mrs. H. G. Pratt fell on the ice near her house on Saturday last striking her back so severely by injuring her head on the frozen ground. She was unconscious for some time and has been confined to her bed ever since, but is now recovering.

SINGING SCHOOL. There is a prospect of a nice singing school in Quincy this winter, under the instruction of Mr. N. N. Gurnsey, a popular teacher from Dedham. The committee having the matter in charge have been very successful. Mr. H. H. Faxon and others have donated liberally for its success.

GAS. At the annual meeting of the Brockton Gas Company on the 15th inst., a semi-annual dividend of three per cent. was declared, and the price of gas was reduced from \$2.75 to \$2.50 per 1000 feet.

THE SUFFRAGE. The vote for Governor in North Carolina was very close, viz: 121,000 for Blaine, 117,000 for Tilden.

SINGING SCHOOL. There is a prospect of a nice singing school in Quincy this winter, under the instruction of Mr. N. N. Gurnsey, a popular teacher from Dedham. The committee having the matter in charge have been very successful. Mr. H. H. Faxon and others have donated liberally for its success.

GAS. At the annual meeting of the Brockton Gas Company on the 15th inst., a semi-annual dividend of three per cent. was declared, and the price of gas was reduced from \$2.75 to \$2.50 per 1000 feet.

Wollaston.

Wollaston has a new excitement in the shape of a skating rink; it being open evenings in the hall over the Post Office. It is well patronized thus far, and many who have considered themselves as adepts on skates have found it altogether different business to keep their feet in their proper place with the rollers on.

The young Literary Society spent a pleasant evening this week at the house of J. M. Call, in having a "Trial by Jury." It was quite interesting to the invited guests, but rather tiresome to the pupils, as their prospects of midnight being either connected or released looked rather dubious. AVOS.

The Quincy Point Gong.

To the Editors of the Quincy Patriot: I for one am glad to hear that at last the fire alarm gong is to go where a majority of the citizens think it should have gone at first. Why it was allowed to disfigure the church was a conundrum, but it was soon guessed and all now know why it was.

The fact must be patent to every one, that a gong placed upon a building will not give out the sound that it will in an open tower. Now the town appropriated \$3000 for this fire alarm system, and do not the citizens expect to hear the alarm, in their homes, but according to your correspondent, "You must get as near as possible to count correctly," and again he says "If a person sends an alarm for \$22, the person giving it is directly guilty of the 'gong and call' and whether it strikes correctly."

Now if the alarm is good for anything, ought not the gong be heard, so that you could count it at a distance of 300 feet, which is about the distance the gong would be from the box should it be placed upon the engine house. I will not trespass upon your space, but hope that before another issue of your paper, the engineers will place the gong where it belongs. CITIZEN.

Quincy Pt., Dec. 13, 1882.

An old negro professed to be indifferent as to a future state, believing that "dey'll make niggers work even in Heaven." A clergyman tried to argue him out of his opinion by representing that there was no work for him or anyone else to do in Heaven.

"You go 'way, massa," was his reply. "I know better. If dere's no oder work for cullud passons up dere dey'll make 'em shub the clouds along."

A GOOD PAPER. The American Agriculturist is appearing in a new dress the coming year. The charge is one dollar in a club. Those wishing to subscribe should send their names with a check to A. W. Sprague, 10 Milk Street, Boston.

There are some china plates now on sale in Boston for the modest sum of \$200 a dozen, but so great is the general distrust and poverty that the set has been broken to oblige customers, and two or three plates have been sold. They are very beautiful and their subjects are copies from masterpieces.

Mr. Drexel's recent reception at his residence in Philadelphia to the effect of a large proportion of the milk supplied to consumers in Boston during the periods when milk is "short," is condensed milk, "uncondensed," and mingled with the fresh article. The fact that the number of cows in the State of Massachusetts is 114,000, and the personal estate at \$3,209,858.52.

At this season of the year the grain, coal and lumber dealers close their places of business at five o'clock. Fifteen of the twenty-four other places of business will be closed for business during the year at 5 P. M.

The boot and shoe business at the Landing never was better than at the present time. The manufacturers report that they have, if not countermanded, plenty of orders for the remainder of the year. F. H. T.

Bristol, Ct., has a citizen who threatens to tear down his hotel because the town has no license. It is a curious brick affair, of considerable importance to Bristol, but Henry Gridley advertises in the local paper that on April 1, 1883, the elegant and useful structure shall, by the Eternal, be levelled to the ground.

The net proceeds of the Unitarian fair and tea party, held in Lecture Room in Neponset, on Friday last week, was nearly two hundred dollars.

Resolutions.

At the regular meeting of Hancock

Lodge No. 56, I. O. G. T., held Dec.

5, 1882, the following preamble and

resolutions were adopted:—

WHEREAS, It has pleased our Heav-

enly Father in His great wisdom to

thus suddenly remove from our midst

our much loved and esteemed Brother,

Albion S. Dodge,

Resolved, That although this dispensa-

tion of Divine Providence has come

very near to each of us, warning us

that "in the midst of life we are in

death," still we would bow with sub-

mission to our Heavenly Father's will,

knowing that "He doeth all things

well."

Resolved, That by his death our

Lodge has lost an upright and consis-

tent member, and an earnest worker in

the cause of temperance, and one

whose principles are worthy of emula-

tion by every member of our order.

Resolved, That we tender to the be-

lieved family and friends our warmest

and most sincere sympathy in their

great loss, looking with them to a re-

union beyond the valley and the shadow

of death.

Resolved, That as a tribute of respect

to our departed Brother, a page in our

records be dedicated to his memory;

that a copy of these resolutions be for-

warded to his family, and a copy to the

Quincy Patriot for publication.

The annual election of Wollaston

Lodge No. 926, K. of H., took place

Monday evening, 18th inst., when the

following officers were chosen for the

ensuing term:—

W. H. Jones, Dictator.

H. T. Whitman, First Dictator.

E. E. Williams, Assistant Dictator.

E. A. King, Reporter.

L. W. Marshall, Financial Reporter.

W. W. Nash, Treasurer.

V. T. Cummings, Chaplain.

Geo. A. Lord, Guardian.

J. J. Perry, Sentinel.

Samuel Brown, Past Dictator.

C. T. Baker, H. T. Whitman.

H. O. Fairbanks, Trustees for one year.

J. C. Bates, Representative to Grand

Lodge.

J. H. Roberts, Alternate.

Dr. J. F. Welch, Medical Examiner.

The success attained by this lodge

since its institution, March 24, 1878,

has been very flattering, having taken

a high rank in the order far beyond the

expectations of its most sanguine

supporters.

Starting with only eighteen charter

members, it has, in the meantime, in-

creased in numbers until the present

time, when some sixty names appear

on the roll book.

No deaths have occurred, and but

very little sickness, rendering it neces-

sary to call forth aid in behalf of the

members.

The financial status of the General

and Members' Fund is very

promising; while the showing in the

Trustees' report is highly praiseworthy,

Poetry.
A Happy New Year.
BY MADGE.
Father Time has been plodding
Through the sunshine and snow,
Since the compliment nodding
Of twelve months ago;
Until, somehow or other,
The day's again here,
When we wish one another
A Happy New Year.
It is a noble salute to
A halting hour;
What an unbounded beauty's
Compliment in its scope!
All the aim of our living,
Hereafter and here,
Is contained in that giving
A Happy New Year!
It is a noble salute to
A halting hour;
What an unbounded beauty's
Compliment in its scope!
All the aim of our living,
Hereafter and here,
Is contained in that giving
A Happy New Year!

Mrs. Winn
With a sigh, Mrs. Winn obeyed.
And quite unthinkingly of his young
wife, who walked the room with her
suffering face until the small hours,
Howard Winn, whose words on the
lowliness of charity at home, had
thrilled so many hearts, laid his head
comfortably upon his pillow, and fell
asleep.
"I am glad to find you are doing so
well, Howard," said Mr. Lenard to his
nephew, the next morning. A man
ought to have a pretty good income to
live in a house like this.
"Mr. Winn cast a quick, furtive
glance upon the speaker."
"A man in my position has to live in
a certain style, uncle; it is expected of
him."
"I told your wife, last evening I have
been unfortunate. And again I'm
getting to be an old man, and need
some one to take me; I made up my
mind to come and live with one of my
nephews. But I suppose it would be
impossible for you to offer me a home?"
"Quite impossible, I'm sorry to say,
uncle."
"And quite as much so, I presume,
for you to return me some portion of
the amount I loaned you in my pro-
per days."
"At present it would be, but I hope
at no distant day to be able to pay you
both principal and interest," replied
Mr. Winn, in a bland, softly-modulated
voice, far beyond complaint in not
only always knowing what to say, but
how to speak it.
"Humph! Where is your cousin
John, now?"
"John Underhill? I believe is living
in Green Street, No. 7."
"How is he getting along?"
"Well, John is a good-hearted, well-
meaning fellow, but he lacks calculation.
He has more money than to feed
for half of his hands can find bread
for half of which haven't the shadow
of a claim on him."
"I should rather like to see him."
"There's his wife and six children; his
father and mother, and aunt
Betsey, uncle Dan's widow. And I've
lately heard that he's saddled himself
with the brother's two orphan boys."
"He mistook me for a beggar last
night, and gave me this," said Mr.
Lenard, taking the half dollar from his
pocket, carefully examining it in a bit
of paper. "I think I must return it to
him in some shape or other."
"Mistook you for a beggar? But you
did a great deal worse, young man;
you not only took from a beggar, but
knocked my hat into the gutter, and
sent me after it. I had just been
listening to your discourse on brotherly
love."
The remainder of the breakfast was
discussed in silence, broken only by an
occasional remark from Mr. Winn, in
regard to "the toughness of the steak,"
and "the muddiness of the coffee,"
which did not have a very enlighten-
ing effect on his wife's spirits, who
evidently lost what little appetite she
had when she came to the table.
Mr. Winn evidently did not consider
it worth while to keep up a cordiality
for the uncle, who he was convinced
was no longer the wealthy man he had
so often flattered and courted; so when
he arose to go, he neither pressed him
to remain nor invited him to come
again.
The old man soon left for John Un-
derhill's house on Green street, where
he was very kindly received.
"Why, uncle Lenard, is this really
you? I am delighted."
"Yes, John. You see I've met with
misfortunes, and I'm getting along
years; so I thought I would come
and see if you had a corner by your
board for my old uncle."
"Now I take this so kind in you! I
been unfortunate, eh? Don't be down-
hearted, sir? You shall never want
while I have a plenty to spare."
"You seem to have a large family al-
ready, nephew. I'm really afraid I
shall be burdensome."
"Not a bit of it, uncle. My house
is like an omnibus—there's always
room in it for one more, ha, ha, ha!
Excuse my little joke."
The holidays were now at hand, and
the week before New Years Mr. Lenard
absented himself so often that John
Underhill and his wife began to fear
that he did not find his new home so
pleasant as they were desirous of mak-
ing it.
New Year's morning arose clear and
beautiful, and Mr. Lenard, who had
been absent the night before, drove up
to his nephew's door in a large covered
carriage, drawn by a pair of prancing
hays.
The wife raised her eyes to her hus-
band's face with a wistful look, but re-
ceived neither smile nor pleasant greet-
ing.
"Your Uncle Lenard was here."

WAYSIDE NOTES NO. 3.
On the principle that the gentleman
from Europe, the Irish poet said, I will
say a few words before I begin, when
he rose to make a speech, so I will say
a few remarks about my
charming visit in Portland after I have
had the Forest City good-bye, which I
did in my last letter. I was a little too
previous in waving my final adieu.
I shall not have to speak of one in
fifty of the interesting things I had the
pleasure of seeing in the metropolis of
Maine, through the courtesy of officer
Edward, of the municipal police force.
He took me to all the historic places,
and Portland has many of them, and to
the jail, too, though I went at the
pleasure of seeing in the metropolis of
Maine, through the courtesy of officer
Edward, of the municipal police force.
He took me to all the historic places,

Parents' Trust and Reflect.
Most parents treat their babies as a
little girl does her doll—as a plaything;
and after having made the little creature
what she is, they cap the whole by
saying, "Oh, how lovely!" "I don't
know what I shall do with Alice," said
a young mother to her guests, while the
little creature looked and listened;
"she doesn't mind me at all, and I have
to hide everything away from her occupa-
cy, or she will hunt until she finds it.
Why, she will hunt an apple behind
her, and look me straight in the eye
and declare stoutly that she has not
anything on her mind."
This habit of talking about children's
peculiarities, especially when these are
undesirable, in their presence, is ex-
ceedingly unwholesome, and is the
surest way to fasten the habit for life.
Take the matter of likes and dislikes
for certain articles of food, for exam-
ple. A child from having overheard, (and
what child is not?) has at some time,
when its stomach was over full, or its
appetite was gone from previous ex-
cesses, refused to drink its milk, and
this may have occurred a number of
times. In its presence, friends are
told that "we can't get him to touch a
drop of milk lately; he does not like it,
and will not take it. We have tried and
tried, but it is no use." And thus, by
the most effectual means, one of the
most wholesome articles is banished
from his diet. Had no apparent
notice been taken in the first instance,
and his diet had been judiciously regu-
lated,—less frequent feeding, or possi-
bly the skipping of a single meal,—he
never would have known that he
did not like milk.
And so we might enumerate the
many ways of forming child habits.
People who would not consider them-
selves capable of training a cat, or a
dog, even, undertake, without hesita-
tion, the training of these little beings.
And this is right; it is God's plan; but
it is done with so little reflection, so little
of care and study, so little appreciation
of the fact that he who is daily re-
ceiving lessons that are to gladden or
sadden its whole future, that the won-
der is not that so many go to—
Golden Rule.
The New York papers are seri-
ously discussing the propriety of
forbidding the sale of tobacco to minors.
It is now possible for a boy to buy a
cigarette for a cent at many grocery
at all tobaccoists and in some apothecary
shops; but if he could obtain it
only through the agency of an adult, he
would in many cases go without it al-
together, and be healthier as well as
wealthier. If there be any reason for
prohibiting the sale of liquor to chil-
dren, why should they be allowed to
indulge in tobacco?

True.
Some ministers and some chorists
preach a great deal about this vain
world as if the devil made it, and
God never had anything to do with it,
and did not own a thing in it. These
are terribly pious but very ignorant
people. They forget that "the earth is
the Lord's and the fullness thereof." It
is true that devoting one's life to
money-getting or to selfish pleasures is
vain, and in some degree vile; but the
mistakes of these pious people is in
impugning the whole world as evil, and
looking upon it as a place of sin and
showing no discrimination. Rather
should they teach how to use the things
of this life as not abusing them, making
them useful as blessings to themselves
and others, and honoring and glorifying
God in the using and enjoying of what
he has given us. This is a beautiful
world, indeed, of a vine one, and if
some of these over-much righteous
brothers could understand it as such,
their speech would have a great deal
better effect.

Letter in the New York Evening
Post, republishes a letter from a
place in which the scream of the eagle
is almost continuous, and the American
sovereign is so free and independent
that the whole world is a vast
house, contractors nor private individ-
uals, can find anybody to do any work
for them. Carpenters, masons, labor-
ers and servants, are all needed, and
high wages are offered for every sort
of work.

Close of the 46th Volume.

With this number the PATRIOT closes its forty-sixth volume and before its next issue reaches the readers, the old year will have fulfilled its mission and taken its place with its predecessors. It is strange how fast these years have run their career; how they have swept along one after another in wild and weird procession. Take a glance over an old volume of the PATRIOT, and note the events it will bring to mind, dating back to childhood.

Forty-six years, almost a half century has passed, when, with hopes and fears the little weekly sheet was sent on its mission to seek public favor. At that time there were but few papers published; Norfolk county could boast of but one. The PATRIOT met with encouragement, and has ever been supported by a liberal public, and it can today boast of a large list of good paying subscribers, and a wide-awake set of advertisers, who show by their beneficent favors, that they believe in keeping the public advised of what they are desirous of selling.

With thanks to patrons for their liberal support we extend to all a Happy New Year.

People's Course.

The lecture at the Town Hall, on Wednesday evening, by Mr. Farrington McIntire, was one of the most interesting of the course. A large audience was present, although not such a jam as on other occasions; all had a chance to get a seat and enjoy the fine diagrams which Mr. McIntire exhibited; some of them were new, never before presented by him to any audience. The regular lecturer of the series, Mr. McIntire, was unable to be present, and the young gentleman secured for this occasion did not succeed as well in getting the focus, as the lecturer desired, although they were presented so nicely that the audience were highly delighted. We hope before long Mr. McIntire can be induced to give our citizens another lecture, as we learn that he has still other views that were not presented.

This present Saturday evening there will not be any entertainment. Next Saturday evening, Jan 6th, there will be a combination entertainment under the management of Mr. Warren G. Richards. Mr. Richards is a character impersonator and introduces humorous songs and life-like sketches. He will be assisted by Miss Gertrude White of Boston, soprano, and Mr. Frank Donahoe, the well-known pianist and organist. An excellent entertainment is promised.

The G. A. R. Fair.

Paul Revere Post 88, G. A. R., of this town held a very successful fair at the Town Hall last week. The hall was beautifully decorated with flags and bunting and looked very handsome. Over the windows were hung many different battle grounds, while draped gracefully over the platform were the stars and stripes and among the folds was the word "Welcome." At the opening exercises on Monday evening, Gov. Long, Honorable Mr. Brewster, Department Commander George H. Patch and Staff, were present. The hall was literally packed. After a short prayer by Rev. Mr. Kelley, Gov. Long made a brief address. He was followed by Commander Patch who spoke in an eloquent and touching manner of the claims of the Grand Army upon the public for support and sympathy in the work contemplated by its organization. The gratifying statement was made that the Grand Army of Massachusetts had expended about \$500,000 in charity towards comrades in this state.

Entertainments were given to enliven the occasion, and we are pleased to say that the hall was well filled each evening. The tables looked very handsome with their fine display of fancy articles. The novel attraction of each evening was "Camp Lovell" with its miniature forts and its tiny soldiers who were constantly legging old and young to try their luck for a dime.

The candy makers drew a continued crowd, and although they worked hard they could not supply the demand. The ice cream and refreshment tables were liberally patronized.

We can but rejoice with the managers in having their labors so well rewarded by an appreciative public. In another part of this week's Patriot will be found the names of those who held the season tickets that drew prizes.

DECEASED. Under the usual death head this week will be found the name of Mrs. N. M., wife of Mr. John O. Jones, nee Dow. In 1859 Mrs. Jones was selected by the School Committee as an assistant teacher of the Quincy High School, and filled that position with credit to herself for some time. The report of that year paid her the following compliment:—"The Committee were fortunate in securing the services of Miss Dow as an assistant, whose reputation as a scholar is rarely excelled. She has long been a resident of this town, and a part of her education has been acquired in our public schools."

Mrs. Jones was the victim of consumption, and had been a patient sufferer for some years.

CHRIST CHURCH. This church as usual was very elaborately trimmed for Christmas, and never looked prettier with its festoons of evergreens, which were very tastefully arranged. Appropriate mottoes surrounded the arch of the Chancel and each window, and a beautiful dove depended from the chandelier, which added greatly to the modest beauty of the sanctuary. On Saturday evening the children enjoyed the pleasure of a Christmas tree, and each heart was made happy with kind remembrances. Services were held at the Church on Christmas morning.

FESTIVITIES. The Universalist Society in Quincy enjoyed Christmas in a very pleasant and social manner at Faxon Hall. The hall was opened soon after dinner, and the little ones began to assemble and take part in the games and amusements prepared by the teachers of the Sabbath School for their enjoyment. About five o'clock a beautiful table was spread, loaded with good things to tempt the appetite. After supper entertainments of various kinds kept the little ones busy until the older ones came in and took possession of the hall, then many retired to their homes, much pleased with the Merry Christmas they had enjoyed.

Brief Records.

A roll of leather has been found.

The Constable business is "picking up."

The boys are enjoying a fine skating season.

We are enjoying excellent winter weather, without sleighing.

Joe F. Sheppard has just received 140 tons of nice Eastern hay.

The old public library building is advertised to be let for balls and parties.

Officer Fernald has been made happy this week by a pretty female baby.

A lady's breastpin was lost at the Unitarian festival on Saturday evening.

We are sorry to learn that Mr. John O. Holden is confined to the house by sickness.

All persons who have not paid their taxes had better read the Collector's notice in our columns to-day.

Eaton Brothers have cut this week about two-thirds of a crop of ice; varying from seven to ten inches in thickness.

Christmas presents were not so numerous in Quincy this year, as in former times, if we can judge by the town talk.

Paul Revere Post will probably increase their Charity Fund about thirteen hundred dollars from the proceeds of their recent fair.

Mrs. John F. Parrott, was very badly injured last Friday night, at the Town Hall, by falling from the platform and striking on her head.

Rev. C. M. Westlake of the M. E. Church, West Quincy, is expected to hold services at the Quincy Home to-morrow at the usual hour.

George H. Locke, Esq., has been recently appointed agent of the Massachusetts Society for the prevention of cruelty to children in Quincy.

The annual meeting of the stockholders of the National Mount Wollaston Bank, for the election of Directors, will be held on Tuesday next, at 3 1/2 o'clock.

Do not forget the large sale of standing wood in Braintree on Tuesday next, Jan. 2d, by Joseph W. Lombard. There will be a collation at noon.

The large and beautiful estate of the late Noah Cummings was sold at auction on Wednesday as advertised, as the family did not wish to sell at a sacrifice.

There will be a New Year's festival at the Chapel of the M. E. Church, West Quincy, on Monday evening. Supper at 6 o'clock. A grand good time is expected.

The large sale of house lots on Canal street, was postponed on Saturday last, owing to the weather, until this afternoon. Let those looking for good bargains be on hand.

Rev. Mr. and Mrs. Sawyer will keep open house New Year's day to welcome all friends who find it convenient to call. In the evening the young people are invited to enjoy a social at the parlance.

Prof. Mohr with his magic blackboard sketches and ventriloquism at the Congregational chapel, last Monday evening, furnished for the young folks, a most amusing and acceptable entertainment.

The scholars belonging to Mr. Cummings' school are requested to carry their singing books with them on Monday evening next, so as to welcome their popular teacher with the greeting song and whistling chorus.

The Rev. C. M. Westlake, of the M. E. Church, West Quincy, commenced on Sunday last, his series of lectures on "Modern Unbelief."

The following are his subjects: "The Signs of the Times," "History and Christianity," "Immortality," "The Kingdom of God."

Jeremiah Doyle and Peter Creden of Quincy were before the District Court in Dorchester on Tuesday last, for disturbing the peace on the late train, on Saturday night. They were found guilty and fined each \$10 and costs. It is thought by some who saw the affair that they should have had thirty days in the House of Correction.

John Cavanagh moved on Thursday from Water street to Hough's Neck, a large farm, for Mr. Joseph T. French, which he intends to fix up for a summer beach-house. It was raised from the underpinning and moved to its destination, a distance of three miles, in about eight hours. Mr. French has bought another stable which he intends to move soon to the same lot.

On Thursday evening a basket containing a female child, apparently only a few days old, was found on the door-step at the residence of Mrs. Eleazer Frederick, on Adams street, in this town. Officer Fernald took the child to his home, and yesterday noon he left it at the Quincy Home in care of the excellent matron of the house. Two shawls were left with the child, and being of a peculiar pattern it is thought will lead to the finding of its mother.

A FINE PRESENT. On Wednesday evening the employees and friends of Mr. E. H. Doble presented him with a group of Rogers' statuary. The presentation speech, written by Mr. C. T. Cole, was delivered by Miss Emma Zeigler. After passing a pleasant evening the party, with many wishes for the New Year to the host and hostess, returned home.

DEATH. In the superior court at Dedham on Wednesday, Hiram P. Steward, of Quincy, pleaded guilty to violations of the screw law, and each paid a fine of \$50 and costs. Thomas Smith, of Quincy, on two complaints, was fined \$50 and costs on the first, and \$50 and costs on the second in the House of Correction on the third.

A BIG TIME. Mr. A. F. Russell was completely surprised by his masonic friends on Wednesday evening at his studio. He received some handsome presents and a fine supper was enjoyed. A general good time was had and the occasion was one of superlative happiness, especially to the prime mover of the event.

There were a great many drunk men in the streets in Boston on Christmas Day; more perhaps than on any of what might be called the quiet holidays for years.

Quincy Point Items.

Before the next number of the PATRIOT is issued the old year will have ended and a new one begun. The Point items have appeared in every copy but one, and your correspondent hopes that with all their failings they have proved of some interest. Items of great importance or of an exciting character are not frequent occurrences in a country village such as this, therefore, such as are furnished the local paper must necessarily be more or less of the stereotyped style. Of course, any writer might easily comment upon many things which happen in a neighborhood and fill a column every week with reports which would be eagerly read, but they would have to be somewhat personal in their nature, and therefore should be avoided, for personalities are sure to breed trouble, whether they are indulged in through the columns of a paper or in private conversation. Those persons are of the most benefit socially in a community who attend to their own business and let that of other people alone. No community can prosper unless there be bickering exists, neither will harmony be found where spite and envy are in the minds of a people.

The old year has almost gone, and when it finally departs may it carry with it all unpleasant feelings which have accumulated during its stay, and may the new year be one of peace, good nature and friendship.

The concert given in the Christian Union Church last Sunday evening was attended by quite a large audience. The exercises were by the Sabbath School, assisted by the choir, and were well rendered. Rev. J. L. Harris made some remarks, in the course of which he announced there would be a praise service next Sunday evening, to be held at the young people's cordially invited. It is proposed to have future Sunday evening services vary somewhat from the usual routine. Mr. Harris will preach to-morrow at 10:30 A. M., and Sabbath School will begin at 11:45 A. M.

The services at the Baptist Church last Sunday were all well attended, especially the Sabbath School and Young People's Meeting. The choir "The Children's Messiah" was well rendered by the chorists from the Sabbath School, and proved to be a very interesting Christmas concert. Mrs. M. A. Marks, who has been unable to sing for several weeks, was present, and sang several solos in a very pleasing manner. To-morrow the pastor, Rev. G. B. Lawton, will preach a sermon adapted to the closing day of the year, and next Tuesday evening he will be assisted in the weekly meeting by Mr. J. A. McElwain, pastor's assistant at the Clarendon Baptist Church, Boston.

The services at the Congregational U. Church Sabbath School had one of the pleasantest times of the season last Saturday evening at their Christmas tree. Nearly every one connected with the school received some welcome gift, and the occasion was one of great enjoyment.

The Culture Engine Company will hold its regular monthly meeting Monday evening.

The communication signed "Citizen" in your last issue of a star which makes it unworthy of a reply from your correspondent. Whatever of effect it may have upon those interested in the matter, "Citizen" is welcome to the press.

At the meeting of the Quincy Point Temperance Association, to be held next Wednesday evening, Rev. Mr. Sawyer, of the Universalist Church, will address the audience.

We would follow from the Derby (N. H.) News of Dec. 15th, 1882. It refers to Rev. J. L. Harris, who has just assumed the pastorate of the Christian Union Church, at the Point:

"An ecclesiastical council, consisting of six or seven of the neighboring pastors, with their delegates, and two resident ministers without charge, met at the vestry of the First Church, on the fifth inst., to consider and advise with reference to the resignation of Rev. J. L. Harris, after the manner of the organization of the council and prayer for the Divine guidance, the communication of Mr. Harris to his people was read, in which, for reasons given, he tendered his resignation. This was in compliance with the request of the general wish of the people to recall their minister, and the pastor was equally decided in the expression of respect and affection for his people. The case, as presented to the council, was embarrassing. But, as generally happens when one of the parties to this kind of contract feels it necessary to dissolve it, the council after due inquiry and deliberation, voted unanimously to advise the acceptance by the church of their pastor's resignation. The council expressed their fraternal interest and good wishes for the First Church, and affectionately commended the resignation to the people. Rev. J. L. Harris, to the confidence and sympathy of the churches, as an able and effective preacher, a consistent and devoted servant of Christ. This community will find it a great loss to be deprived of the eloquent and devout pulpit services of the genial, social, influence, and the sympathetic pastoral attentions of so accomplished a minister and gentleman."

THE BANCO SWINDLER. A petition was presented to the supreme judicial court on Wednesday for a writ of error to review the recent trial and sentence of James Fitzgerald, alias "The Kid," who is now serving a sentence of five years in the Massachusetts State Prison, upon the charge of having swindled the Hon. Charles Francis Adams out of \$18,000 in checks by means of the lanco game. Several reasons why a writ of error should issue are given in the petition, the principal one being that Fitzgerald was convicted and acquitted upon contradictory evidence, precisely the same offense, and that therefore the verdict of guilty was inconsistent and repugnant. Upon this application Judge Allen has caused a writ to issue, which is made returnable on the second Tuesday in February, when the Commonwealth will have to show whether Fitzgerald is legally held as a prisoner by the State.

REUNION. The Red Ribbon Reform Clubs of Massachusetts will hold their next reunion at Reform Club Hall in Worcester, Tuesday, Jan. 16th, closing with a mass meeting in the evening.

Boston has had but two City Clerks since it became a city. Mr. Samuel F. McCreary held the position from 1822 to 1852, thirty years, and his son succeeded him that year and is also completing his thirtieth year of service.

District Court, Quincy.

The following criminal cases have been before the East Norfolk District Court this week:

James Sullivan, of Quincy, for selling intoxicating liquors. Discharged for want of evidence.

Patrick Morris, of Quincy, for an assault with a fire cracker, on Charles H. Clifton. Case continued until this Saturday morning.

Robert Foye, of Quincy, for evading fare on the Old Colony Railroad. Fined \$5 and costs. In default he was committed.

George P. Hollis, of Braintree, for being drunk. Discharged on payment of costs.

Both Records, of Weymouth, for keeping a liquor nuisance. Fined \$100.00 and costs, from which sentence he appealed.

Christmas Concert.

At the Christmas concert, Sunday evening, at the Congregational Church, Mr. Herbert Gleason of Malden, gave a most interesting illustrated exercise.

The exercises were by the Sabbath School, assisted by the choir, and were well rendered. Rev. J. L. Harris made some remarks, in the course of which he announced there would be a praise service next Sunday evening, to be held at the young people's cordially invited. Christmas at the Chapel.

The idea has seemed to prevail some-what in Sunday Schools that scholars by their attendance place somebody under a sort of obligation, the settlement of which is expected about Christmas time. This solid notion, which quite too much fosters a spirit of selfishness, is being rapidly overcome, so that now the Sunday schools make a Christmas offering to the needy and unfortunate, instead of receiving gifts from the teachers, some of whom can ill afford the tax, or from a fund raised especially for this purpose, thus tainting the delight of doing and giving for others.

This is the third year that the Sunday School of the Congregational Church has practiced this method, and the conviction grows stronger each year that not only is one of the most beautiful teachings of the Bible thus being enforced, but that the old plan of Christmas tree giving will hardly be resorted to again. In a Sunday School where there is the cheerful offering of gifts and the enthusiastic enjoyment of a moral and religious education, the Christmas evening, there seems to be no necessity for the usual Christmas tree or Christmas gifts, which are so desirable and beautiful elsewhere, and which is its earnestly hoped will always be in fashion.

The West Quincy Conductor.

To the Publishers of the Quincy Patriot.

I noticed in an article of the West Quincy items last week that the citizens of West Quincy and East Milton are glad to see that the O. C. R. Company have put on a regular conductor on the road between the two towns, but the citizens think that it belongs to Mr. Daniel Desmond. He has served on the branch for the last seven years, and a more competent or obliging man we have never met. On inquiring, I find that many of the conductors have been changed to different places, caused by shortening of trains, and many of the new conductors have gone back into the baggage cars, and, as I understood, this was the reason of the regular conductor being put on the branch.

I take this opportunity of saying a word in Mr. Desmond's favor, as I think a man who has served as faithfully as he deserves it, and I hope soon to see Mr. D. as a regular conductor of the branch.

Weymouth Items.

Mr. Lewis E. Tilden, being convalescent, will occupy his position at the Baptist organ to-morrow.

Mr. John C. Rhines, a retired lumber merchant at the Landing, who it will be remembered, accidentally slipped and fell on the ice some two weeks ago, is not, as reported, recovering. Considering his advanced age, 76 years, his friends think his chance of recovery extremely doubtful.

The late handsome sign on Wyman's drug store was placed in position on Wednesday, and attracts the attention of the passers by.

The grand vocal concert to be given by the Schubert Club in the Union Baptist Church, Friday, promises to be a grand affair.

Timothy Conner fed last Saturday afternoon of apples.

Rather than to carry the goods over, the remaining Christmas presents at the stores will be sold at a discount.

1817, a lucky number, and Thos. W. Pray, a comrade of Post 58, the purchaser. The result being a handsome gold chain drawn at the recent Grand Army fair, Quincy.

Mr. Peter Cushing was taken suddenly ill last week. It is a case of progressive paralysis, and his recovery is very doubtful.

Mr. J. B. Bates, the genial pill doctor, has in contemplation the building of a large three story factory near the depot. Messrs. Loring, Wright and Vinton's services have been engaged, and in a few days will commence blasting the hard ledge to make room for the gigantic structure.

A Memorial Tablet.

At a meeting of the Boston Board of Aldermen on Thursday, the following order was passed in memory of John Hancock, who was born in Quincy:

Ordered, That His Honor the Mayor cause a bronze tablet to be placed upon the front line of the estates of Mr. John Hancock, who was born in Quincy, and that the inscription thereon be as follows: "JOHN HANCOCK, a prominent and patriotic merchant of Boston, the first signer of the Declaration of American Independence, and first Governor of Massachusetts. Died the State Constitution. Erected 1782." Removed 1882.

CHRISTMAS TREES. The free vendors in Boston fared hard at Christmas. It is estimated that not more than one-half the trees carried into the Boston market for Christmas were sold, and it goes without saying that those that were not sold (perhaps 10,000) proved worse than a total loss to their owners, in view of the fact that they must be carted off the streets. Great numbers of the unsold trees were given away Saturday night, market gardeners in the outlying towns carrying off whole wagon loads of them.

THE NEW SONG. By E. A. Samuels, entitled "My Darling Marie," is one of the most charming compositions of recent publication, and it is fast becoming very popular. Every one who sings should own a copy. It is published by Oliver Ditson & Co., Boston. Price, for voice and piano, 35 cents.

Wollaston.

The Baptist Society had their usual Christmas festival at their church on Saturday evening. The church was very neatly trimmed and together with mottoes and designs it had a very pleasing effect. The trees were well laden with presents both for old and young; and Santa Claus, who came in his sleigh drawn by six horses, found a hearty welcome. But before the presents were distributed, a new feature was added, which does not often happen on such an occasion, nothing more or less than the marriage of a couple, well known and respected by the society, and if the editor of your paper should receive some touching lines of poetry, referring to this event from an old correspondent under a new name, he will probably surmise, who one of the parties were.

The services of the Sabbath were appropriate for the day; also the concert in the evening, at which a large audience was present.

The new pastime of skating on "Rollers" has proved so fascinating the proprietors have been obliged to duplicate their stock, and now every evening finds the hall well filled with ladies and gentlemen enjoying the new novelty of learning how to "balance to partners."

"Turn corners," &c.

Report has it that a new branch of business is soon to be started here, namely, an apothecary shop; this being a very healthy locality, the prospects are not very encouraging.

Christmas Day.

An excellent dinner was provided for the six hundred and thirty-eight convicts at the State prison in Concord, Christmas day. It was a roast turkey dinner, some 700 pounds being required to serve them. They also had mashed potatoes, boiled onions, turnip, bread, plum cake, and chocolate for dinner. For breakfast 450 pounds of sausages, and other food that was plentifully served. There were a very large number of packages of poultry, fruit and other delicacies sent the convicts by their friends.

NEPESSET. The fair, which has been held in Saint Anne's Catholic church, in Nepeset, the past few weeks, resulted in raising for that church thirty-six hundred dollars. It is in contemplation to build an addition of forty feet to the church edifice some time next season.

A system of drill which will hasten the progress of children in case of fire is to be introduced into the Brooklyn public schools.
